**The Figural Jew** Sarah Hammerschlag, 2010-05-15 The rootless Jew wandering disconnected from history homeland and nature was often the target of early twentieth century nationalist rhetoric aimed against modern culture But following World War II a number of prominent French philosophers recast this maligned figure in positive terms and in so doing transformed postwar conceptions of politics and identity Sarah Hammerschlag explores this figure of the Jew from its prewar usage to its resuscitation by Jean Paul Sartre Emmanuel Levinas Maurice Blanchot and Jacques Derrida Sartre and Levinas idealized the Jew s rootlessness in order to rethink the foundations of political identity Blanchot and Derrida in turn used the figure of the Jew to call into question the very nature of group identification By chronicling this evolution in thinking Hammerschlag ultimately reveals how the figural Jew can function as a critical mechanism that exposes the political dangers of mythic allegiance whether couched in universalizing or particularizing terms Both an intellectual history and a philosophical argument The Figural Jew will set the agenda for all further consideration of Jewish identity modern Jewish thought and continental philosophy

The International Politics of Migration Masayuki Tadokoro, 2025-02-24 This open access book discusses the impact of cross border migration on the relationships between sovereign states While there is already a vast amount of literature on immigration it often focuses on issues such as human rights citizenship and social integration reflecting the contemporary interests of Western countries However as long as the most fundamental norm of international politics remains the mutual recognition of exclusive jurisdictional rights over territory by sovereign states people crossing borders pose various challenges to this system of sovereign states It is this awareness of the issue that makes this book unique This book examines the implications of the movement of people across national borders both for the state and for international politics From the standpoint of international politics the focus of the examination is the international political meaning of the transnational phenomenon of the movement of people This is an interest that extends from the study of international political economy which questions the significance for international politics of the transnational phenomena of international trade and international finance

D.H. Lawrence John Worthen, 1993-01-01 Lawrence s career as a professional writer is a remarkable story The son of a coal miner he made a moderately successful start to his professional life in 1912 but the banning of his novel The Rainbow in 1915 effectively destroyed his capacity to earn his living by his writing during the War Even after the War he wrote an enormous amount in many genres not simply because he was a

creative genius but because his books generally sold so poorly only *Lady Chatterley's Lover* ever earned him very much. This study not only describes his day to day achievement as a professional writer but also the problems which influenced his writing.

**Joseph Conrad** David J. Supino, 2022-08-13 David J. Supino traces in unprecedented detail the lineaments of Joseph Conrad's authorial career and the fortunes and misfortunes of his publishers on both sides of the Atlantic. *The Voice of the Old Frontier* R. W. G. Vail, 2017-01-30 This volume contains the three lectures R. W. G. Vail delivered in the fall of 1945 in connection with his A. S. Rosenbach Fellowship at the University of Pennsylvania supplemented by descriptions of 1300 bibliographical items covering the North American frontier literature over the period 1542 to 1800.

**French Connections** Andrew N. Wegmann, Robert Englebert, 2020-11-04 French Connections examines how the movement of people, ideas, and social practices contributed to the complex processes and negotiations involved in being and becoming French in North America and the Atlantic World between the years 1600 and 1875. Engaging a wide range of topics from religious and diplomatic performance to labor migration, racialization, and both imagined and real conceptualizations of Frenchness and Frenchification, this volume argues that cultural mobility was fundamental to the development of French colonial societies and the collective identities they housed. Cases of cultural formation and dislocation in places as diverse as Quebec, the Illinois Country, Detroit, Haiti, Acadia, New England, and France itself demonstrate the broad variability of French cultural mobility that took place throughout this massive geographical space. Nevertheless, these communities shared the same cultural root in the midst of socially and politically fluid landscapes where cultural mobility came to define and indeed sustain communal and individual identities in French North America and the Atlantic World. Drawing on innovative new scholarship on Louisiana and New Orleans, the editors and contributors to French Connections look to refocus the conversation surrounding French colonial interconnectivity by thinking about mobility as a constitutive condition of culture. From this perspective, separate spheres of French colonial culture merge to reveal a broader, more cohesive cultural world. The comprehensive scope of this collection will attract scholars of French North America, early American history, Atlantic World history, Caribbean studies, Canadian studies, and frontier studies. With essays from established award-winning scholars such as Brett Rushforth, Leslie Choquette, Jay Gitlin, and Christopher Hodson, as well as from new progressive thinkers such as Mairi Cowan, William Brown, Karen L. Marrero, and Robert D. Taber, French Connections promises to generate interest and value across an extensive and diverse range of concentrations.
