Artefacts of Writing Peter D. McDonald, 2017-10-11 Some forms of literature interfere with the workings of the literate brain posing a challenge to readers of all kinds including professional literary critics In *Artefacts of Writing* Peter D McDonald argues they pose as much of a challenge to the way states conceptualise language culture and community Drawing on a wealth of evidence from Victorian scholarly disputes over the identity of the English language to the constitutional debates about its future in Ireland India and South Africa and from the quarrels over the idea of culture within the League of Nations in the interwar years to UNESCO's ongoing struggle to articulate a viable concept of diversity McDonald brings together a large ensemble of legacy writers including T S Eliot James Joyce and Rabindranath Tagore putting them in dialogue with each other and with the policy makers who shaped the formation of modern states and the history of internationalist thought from the 1860s to the 1940s In the second part of the book he reflects on the continuing evolution of these dialogues showing how a varied array of more contemporary writers from Amit Chaudhuri J M Coetzee and Salman Rushdie to Antjie Krog Arvind Krishna Mehrotra and Eskia Mphahlele cast new light on a range of questions concerning education literacy human rights translation indigenous knowledge and cultural diversity that have preoccupied UNESCO since 1945 At once a novel contribution to institutional and intellectual history and an innovative exercise in literary and philosophical analysis *Artefacts of Writing* affords a unique perspective on literature's place at the centre of some of the most fraught often lethal public controversies that defined the long twentieth century and that continue to haunt us today

Walsh, 2020-02-25 China's constitution explicitly refers to its sovereign domain as sacred territory Why does an avowedly secular state make such a claim and what does this suggest about the relations between religion and the nation state Focusing primarily on China Stating the Sacred offers a novel approach to nation state formation arguing that its most critical element is how the state sacralizes the nation Michael J Walsh explores the religious and political dimensions of Chinese state ideology making the case that the sacred is a constitutive part of modern China He examines the structural connection among texts constitutions legal codes national histories ostensibly universal and normative categories race religion citizenship freedom human rights and territoriality the integrity of sovereignty and control over resources and people showing how they are bound together by the sacred Considering a variety of what he refers to as theopolitical techniques Walsh argues that nation states undertake sacralization in order to legitimate the violence of establishing and expanding their sovereignty Ultimately territorialization is a form of sacralization and the foundational role of the sacred makes all nation states religious states Stating the Sacred offers new ways of understanding China's approach to legality control of the populace religious freedom human rights and the structuring of international relations and it raises existential questions about the fundamental nature of the nation state
