Afrikaans Paper 1 November 2014:

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience. **The Handbook of Bilingual and Multilingual Education** Wayne E. Wright, Sovicheth Boun, Ofelia García, 2017-09-25 The Handbook of Bilingual and Multilingual Education presents the first comprehensive international reference work of the latest policies, practices and theories related to the dynamic interdisciplinary field of bilingual and multilingual education. Represents the first comprehensive reference work that covers bilingual, multilingual and multicultural educational policies and practices around the world. Features contributions from 78 established and emerging international scholars. Offers extensive coverage in sixteen chapters of language and education issues in specific and diverse regional geographic contexts including South Africa, Mexico, Latvia, Cambodia, Japan and Texas. Covers pedagogical issues such as language assessment as well as offering evolving perspectives on the needs of specific learner populations such as ELLs, learners with language impairments and bilingual education outside of the classroom. ***A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond*** Zakeera Docrat, Russell H. Kaschula, Monwabisi K. Ralarala, 2021-06-02 A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond is an interdisciplinary publication located in the discipline of forensic linguistics, language and law. This handbook includes varying comparative African and global case studies on the use of languages in courtroom discourse and higher education institutions. Kenya, Morocco, Nigeria, Australia, Belgium, Canada and India. These African and global case studies form the backdrop for the critique of the monolingual English language of record policy for South African courts, the core of this handbook discussed in relation to case law and the beleaguered legal interpretation profession. This handbook argues that linguistic transformation and decolonisation of South Africa's legal and higher education systems needs to be undertaken where legal practitioners are linguistically equipped to litigate in a bilingual, multilingual courtroom that enables access to justice for the majority of African language speaking litigants enforcing their constitutional language rights. **Masterstroke** Debabrata Ghosh, 2022-07-12 It has taken me two and a half years to write this book. Thank you **The Water Legacies of Conventional Mining** James E. Nickum, David B. Brooks, Anthony Turton, Surina Esterhuysen, 2018-10-15 The impact of mining is too big to ignore in a world of oversubscribed water This is true of conventional mining as much as or even more than hydraulic fracturing fracking The legacy issues of such mining on water have not been fully appreciated especially the irretrievable effects mining has had on communities and ecosystems around the world through its impact on water Yet this is not an us or them problem the wealth influence and technical knowledge of mining interests can and must be part of the solution All of the contributions to this volume either consider the deficiencies of existing governance structures and the need for better ones or explore the use of new techniques to identify and evaluate social and environmental impacts The chapters in this book were originally published in the journal Water International

The Final-Over-Final Condition Michelle Sheehan, Theresa Biberauer, Ian Roberts, Anders Holmberg, 2017-10-27 An examination of the evidence for and the theoretical implications of a universal word order constraint with data from a wide range of languages This book presents evidence for a universal word order constraint the Final over Final Condition FOFC and discusses the theoretical implications of this phenomenon FOFC is a syntactic condition that disallows structures where a head initial phrase is contained in a head final phrase in the same extended projection domain The authors argue that FOFC is a linguistic universal not just a strong tendency and not a constraint on processing They discuss the effects of the universal in various domains including the noun phrase the adjective phrase the verb phrase and the clause The book draws on data from a wide range of languages including Hindi Turkish Basque Finnish Afrikaans German Hungarian French English Italian Romanian Arabic Hebrew Mandarin Pontic Greek Bagirmi Dholuo and Thai FOFC the authors argue is important because it is the only known example of a word order asymmetry pertaining to the order of heads As such it has significant repercussions for theories connecting the narrow syntax to linear order

Dare Not Linger Nelson Mandela, Mandla Langa, 2017-10-24 A memoir of Mandela's time in office as the first president of a democratic South Africa completed and expanded with his personal notes and speeches I have discovered the secret that after climbing a great hill one only finds that there are many more hills to climb I have taken a moment here to rest to steal a view of the glorious vista that surrounds me to look back on the distance I have come But I can rest only for a moment for with freedom comes responsibilities and I dare not linger for my long walk is not ended In 1994 Nelson Mandela became the first president of a democratic South Africa From the outset he was committed to serving only a single five year term During his presidency he and his government ensured that all of South Africa's citizens became equal before the law and he laid the foundation for turning a country riven by centuries of colonialism and apartheid into a fully functioning democracy Dare Not Linger is the story of Mandela's presidential years drawing heavily on the memoir he began to write as he prepared to leave office but was unable to finish Now the acclaimed South African writer Mandla Langa has completed the task using Mandela's unfinished draft detailed notes that Mandela made as events were unfolding and a wealth of unseen archival material With a prologue by Mandela's widow Graa Machel the result is a vivid and often inspirational account of Mandela's presidency and the creation of a new democracy It tells the story of a country in transition and the challenges Mandela faced as he strove to make his vision for a liberated South Africa a reality Underneath the history that has been made there is a human being who chose hope over fear progress over the prisons of the past Even as he became a legend to know the man Nelson Mandela is to respect him even more Barack Obama A rare human being who in freeing himself of his demons also became free to give his extraordinarily leadership to his country and the world Bill Clinton A critically important document as the principal firsthand record of Mandela's tumultuous time in office and the often ingenious measures he took to bring about peace the

National Identity and State Formation in Africa Manuel Castells, Bernard Lategan, 2021-03-17 This book examines how the interplay between globalization and the assertion of local identities is reshaping the political landscape of Africa. While defending their values against external forces, people simultaneously and paradoxically use the interconnectivity of global networks to maximize their particular interests. Focusing on the relation between national identity and state formation, the authors explore the far-reaching consequences of these contradictory dynamics. Although Africa shares many common trends with other parts of the world, it also displays distinctive features. A region characterized by the increased mobility of people, goods, and ideas challenges some conventional assumptions of statecraft and also highlights the advantages of federalism not merely as a constitutional option but as a pragmatic device for managing diversity and holding fragile states together. The book further explores emerging types of state formation in the same political space as exemplified by the combination of elements of a kingdom, an independent state, and a national power base in the province of KwaZulu Natal and the careful crafting of an alternative state within a state by the Solidarity Movement in South Africa. Informed by examples and case studies drawn from different parts of Africa, this book will be of great interest to students and scholars of Africa, politics, sociology, media studies, and the social sciences more generally.

The Handbook of Social Work and Social Development in Africa Mel Gray, 2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies. This book focuses solely on the unique African context, engaging with issues relating to social work and development more broadly, thus enabling a deeper examination and more complex and nuanced picture to emerge. Unlike most academic works, this book highlights multiple practitioner voices with authors or co-authors that have recently been or are currently practising social workers. As an edited book, it draws from both academic research as well as lived practice experience, supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible. Looking at case studies from Lesotho, Botswana, Kenya, Zimbabwe, Ethiopia, Namibia, Uganda, Nigeria, Kenya, South Africa, Rwanda, Zambia, and Tanzania, and covering established areas of practice such as child protection, working with older people, working with people with disabilities, mental health, and mainstream services targeting women, as well as emerging areas of developmental social work practice such as humanitarian assistance in post-conflict situations, work with immigrants and refugees, and the training of community-based workers, this book takes a future-oriented perspective that aims to move beyond well-worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective.

Re-Envisioning and Restructuring Blended Learning for

Underprivileged Communities Bosch, Chantelle, Laubscher, Dorothy Joy, Kyei-Blankson, Lydia, 2021-05-14 Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID 19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning, as opposed to fully online learning or traditional face-to-face teaching, has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full-time study as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices, and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had. *Re-envisioning and Restructuring Blended Learning for Underprivileged Communities* shares how institutions in the developing world and less privileged communities have reimagined and restructured blended education to enhance teaching and learning for underprivileged communities. This book aims to address blended learning solutions across institutional, program, course, and activity levels. The chapters will cover a variety of learning environments from rural settings to less developed countries and more, and explore the programs and courses designed to improve student success and accessibility in diverse student populations. This book is ideally intended for teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students who are interested in blended learning opportunities in less privileged settings and to underserved and marginalized populations. *Translation and Public Policy* Gabriel González Núñez, Reine Meylaerts, 2017-04-21 This book brings together an ensemble of leading voices from the fields of economics, language policy, law, political philosophy, and translation studies. They come together to provide theoretical perspectives and practical case studies regarding a shared concern: translation policy. Their timely perspectives and case studies allow for the problematizing and exploration of translation policy, an area that is beginning to come to the attention of scholars. This book offers the first truly interdisciplinary approach to an area of study that is still in its infancy. It thus makes a timely and necessary contribution. As the 21st century marches on, authorities are more and more confronted with the reality of multilingual societies, and the monolingual state policies of yesteryear seem unable to satisfy increasing demands for more just societies. Precisely because of that, language policies of necessity must include choices about the use or non-use of translation at different levels. Thus, translation policy plays a prominent yet often unseen role in multilingual societies. This role is shaped by tensions and compromises that bear on the distribution of resources, choices about language, legal imperatives, and notions of justice. This book aims to inform scholars and policy makers alike regarding these issues. Religion and Sexuality in Cross-Cultural Perspective Stephen Ellingson, M. Christian Green, 2014-03-18 Issues of sexuality and gender are hotly

contested in both religious communities and national cultures around the world In the social sciences religious traditions are often depicted as inherently conservative or even reactionary in their commitments to powerful patriarchal and pronatalist sexual norms and gender categories In illuminating the practices of religious traditions in various cultures these essays expose the diversity of religious rituals and mythologies pertaining to sexuality In the process the contributors challenge conventional notions of what is normative in our sexual lives Churches, Blackness, and Contested Multiculturalism R. Smith, W. Ackah, A. Reddie, 2014-06-18 This volume assesses contemporary church responses to multicultural diversity and resisted categories of social difference with a central focus on whether or how racial ethnic religious sexual and gender differences are validated by churches and especially black churches torn between competing inclusive and exclusive tendencies *Regarding Muslims* Gabeba Baderoon, 2014-06-01 An analysis of the role of Muslims from South Africa's founding to the present and points to the resonance of these discussions beyond South Africa How do Muslims fit into South Africa's well known narrative of colonialism apartheid and post apartheid South Africa is infamous for apartheid but the country's foundation was laid by 176 years of slavery from 1658 to 1834 which formed a crucible of war genocide and systemic sexual violence that continues to haunt the country today Enslaved people from East Africa India and South East Asia many of whom were Muslim would eventually constitute the majority of the population of the Cape Colony the first of the colonial territories that would eventually form South Africa Drawing on an extensive popular and official archive *Regarding Muslims* analyses the role of Muslims from South Africa's founding moments to the contemporary period and points to the resonance of these discussions beyond South Africa It argues that the 350 year archive of images documenting the presence of Muslims in South Africa is central to understanding the formation of concepts of race sexuality and belonging In contrast to the themes of extremism and alienation that dominate Western portrayals of Muslims *Regarding Muslims* explores an extensive repertoire of picturesque Muslim figures in South African popular culture which oscillates with more disquieting images that occasionally burst into prominence during moments of crisis This pattern is illustrated through analyses of etymology popular culture visual art jokes bodily practices oral narratives and literature The book ends with the complex vision of Islam conveyed in the post apartheid period **Cape Town Harmonies** Armelle Gaulier, Denis-Constant Martin, 2017-07-19 Cape Town's public cultures can only be fully appreciated through recognition of its deep and diverse soundscape We have to listen to what has made and makes a city The ear is an integral part of the research tools one needs to get a sense of any city We have to listen to the sounds that made and make the expansive mother city Various of its constituent parts sound different from each other There is the sound of the singing men and their choirs teams they are called in preparation for the longstanding annual Malay choral competitions The lyrics from the various repertoires they perform are hardly ever written down There are texts of the hallowed Dutch songs but these do not circulate easily and widely Researchers dream of finding lyrics from decades ago not to mention a few generations ago back to the early 19th

century This work by Denis Constant Martin and Armelle Gaulier provides us with a very useful selection of these songs More than that it is a critical sociological reflection of the place of these songs and their performers in the context that have given rise to them and sustains their relevance It is a necessary work and is a very important scholarly intervention about a rather neglected aspect of the history and present production of music in the city Clever Blacks, Jesus and Nkandla Gareth Van Onselen, 2014-05-08 Jacob Zuma is a man who walks in two worlds As president of South Africa he is tasked with upholding the principles that define the Constitution and embodying the values they are designed to engender But as an individual a set of private impulses ranging from his religious beliefs to his traditional African cultural convictions to a populist and patriarchal attitude to power defines his world view and many of these impulses run counter to the Bill of Rights The result is an often violent clash between his formal duties and more informal demagogic instincts South Africa's public debate is where that conflict plays itself out Here Gareth van Onselen has put together a comprehensive collection of Zuma's most controversial and often contradictory public statements With some 350 quotes collected along ten themes that define Zuma's personal beliefs Clever Blacks Jesus and Nkandla documents some of Zuma's most notorious moments It aims to serve as both an easy guide to Zuma's personal philosophy and a reference point for some of the debates that have defined his political career The quotes represent one of the fundamental fault lines that run through South African discourse today a society trapped between its Third World realities and its much vaunted First World ambitions In many ways Zuma is the epicentre around which the subsequent debate has unfolded
