**Narratology beyond the Human** David Herman,2018-03-01 To what extent and in what manner do storytelling practices accommodate nonhuman subjects and their modalities of experience and how can contemporary narrative study shed light on interspecies interactions and entanglements In *Narratology beyond the Human* David Herman addresses these questions through a cross disciplinary approach to post Darwinian narratives concerned with animals and human animal relationships Herman considers the enabling and constraining effects of different narrative media examining a range of fictional and nonfictional texts disseminated in print comics and graphic novels and film In focusing on techniques such as the use of animal narrators alternation between human and nonhuman perspectives the embedding of stories within stories and others the book explores how specific strategies for portraying nonhuman agents both emerge from and contribute to broader attitudes toward animal life Herman argues that existing frameworks for narrative inquiry must be modified to take into account how stories are interwoven with cultural ontologies or understandings of what sorts of beings populate the world and how they relate to humans Showing how questions of narrative bear on ideas of species difference and assumptions about animal minds *Narratology beyond the Human* underscores our inextricable interconnectedness with other forms of creatural life and suggests that stories can be used to resituate imaginaries of human action in a more than human world *The Hypothetical Species* Michael Charles Tobias,Jane Gray Morrison,2019-03-28 This book is a provocative and invigorating real time exploration of the future of human evolution by two of the world s leading interdisciplinary ecologists Michael Charles Tobias and Jane Gray Morrison Steeped in a rich multitude of the sciences and humanities the book enshrines an elegant narrative that is highly empathetic personal scientifically wide ranging and original It focuses on the geo positioning of the human Self and its corresponding species The book s overarching viewpoints and poignant through story examine and powerfully challenge concepts associated historically with assertions of human superiority over all other life forms Ultimately *The Hypothetical Species* Variables of Human Evolution is a deeply considered treatise on the ecological and psychological state of humanity and her options both within and outside the rubrics of evolutionary research for survival This important work is beautifully presented with nearly 200 diverse illustrations and is introduced with a foreword by famed paleobiologist Dr Melanie DeVore *A Short History of the Future* W. Warren Wagar,1999-08 Narrated by a far future historian Peter Jensen leaves an account of the world from the 1990s to the opening of the 23rd century as a gift to his

granddaughter A combination of fiction and scholarship this third edition of Wagar s speculative history of the future alternates between descriptions of world events and intimate glimpses of this historian s family into the first centuries of the new millennium
