**Against All Odds** Paul Porwoll, 2014-02-03 The tranquility of the magnificently restored Saint Andrews Parish Church surrounded by stately oaks and ancient gravestones belies a tumultuous past. If its walls could talk they would tell a story as old as the human condition. Founded in the forest of a new colony, this simple Anglican church served planters and their slaves during the heyday of rice and indigo. Before the Civil War, ministry shifted to the slaves and afterward to freed men and women. Following years of decline and neglect, Saint Andrews rose like the phoenix. The history of the oldest surviving church south of Virginia and the only remaining colonial cruciform church in South Carolina is one of wealth and poverty, acclaim and anonymity, slavery and freedom, war and peace, quarrelling and cooperation, failure and achievement. It is the story of a church that has refused to die against all odds.

*Against All Odds* Max Bader, 2010 As part of a wider democracy promotion effort, political parties in Georgia and Ukraine, as in most other post-communist states, have received assistance from a number of non-governmental but government-funded western organizations for most of the post-communist period. This assistance, however, has persistently failed to contribute to making parties in the two former Soviet republics substantially more stable, democratic, and representative. In searching for an answer to why the assistance has not been more effective, this thesis looks both at the nature of the assistance and the particularities of party politics in Georgia and Ukraine. The thesis argues that, as a consequence of domestic constraints on party development, political parties in Georgia and Ukraine were essentially unsuitable as recipients of party assistance and that, therefore, party assistance was poorly positioned to make an impact.

*Against All Odds* Sarah Forster-Heinzer, 2015-04-21 It is nearly impossible to overestimate the significance of a professional ethos in pedagogical situations. Most theories of education understand ethos and ethical acting as belonging to the core of the pedagogical profession. Despite this evidence, remarkably few empirical studies exist on ethos. This book has three main aims: 1) to conceptualize the pedagogical ethos at the theoretical level; 2) to operationalize it systematically; and 3) to study it empirically from the trainers' perspective but also from that of apprentices. Part 1 offers a critical discussion on different theoretical approaches of professional morality. These include theories on moral values or professional codes, virtue ethics, professional sensitivity, moral commitment, and caring. Identified communalities are combined to form a new model of professional ethos. More intensively than other existing theories, the ethos approach presented in this book stresses the content's situational impact on decision making and motivation. The main question guiding the instrument development dealt with in Part 2 asks how we can distinguish professional morality from the general notion that people should be good. In order to answer this question, vocational education but also a trainer's pedagogical duties and responsibilities are discussed. Part 3 then presents the result of two empirical studies with vocational trainers and apprentices. It offers some interesting findings for further reflection, input not only relevant for researchers but also educational institutes, professional associations, and practitioners themselves. In short, this book contributes significantly to research on professional morality as well as vocational

*A Science Career Against all Odds* Bernhard Wunderlich, 2010-03-01 Today is Sunday June 17 2007 Father's Day Naturally the obligatory carefully selected cards phone calls and small gifts arrived from the children and grandchildren Best wishes for Father's Day were also the first words in the morning from Heide my wife of 54 years although for many years I had made the comment I am not your father But in the frame of my life's experiences throughout the 20th century as I intend to summarize them over the next few years the 17th of June has much deeper significance This was the day in 1953 when we finally fled from our life of oppression which had lasted 20 years Two successive dictatorships one of Hitler and the other of Stalin caused the most horrific slaughter of civilians and soldiers eclipsing all prior history During these first years of my life I was plainly lucky to survive After this day I had a much better chance to experience the freedom needed to lead a life of creativity satisfaction and ultimately prosperity all directed largely by our own decisions throughout The 17th of June 1953 was a Wednesday I stayed in the apartment of my parents in my hometown of Brandenburg in the German Democratic Republic GDR the former Russian occupied zone of Germany The summer vacation of the Humboldt

program to fight the Taliban insurgency using the movement's structure and strategy against it. The Village Stability Operations Afghan Local Police initiative consisted of U S Army Special Forces and U S Navy SEAL teams embedding with villagers to fight the Taliban holistically. By enlisting Afghans in their own defense, organizing the local populace and addressing their grievances with the Afghan government, SOF was able to defeat the Taliban's military as well as its political arm. Combining the traditions of U S Army Special Forces with the lessons learned in the broader SOF community from years of counterinsurgency work in Iraq and Afghanistan, this new approach fundamentally changed the terms of the conflict with the Taliban. However, little has been written about this initiative outside of the special operations community until now. In this first-hand account of how the Village Stability Operations program functioned, Daniel R. Green provides a long-term perspective on how SOF stabilized the southern Afghan province of Uruzgan, the site of the Pashtun uprising against the Taliban in 2001, led by Hamid Karzai, future president of Afghanistan. In *The Warlords' Shadow*, offers a comprehensive overview of how SOF adapted to the unique demands of the local insurgency and is a rare inside look at how special operations confronted the Taliban by fighting a better war and, in so doing, fundamentally changed the course of the war in Afghanistan.

[International Cooperation Against All Odds](#) Mai'a K. Davis Cross, 2024. *International Cooperation Against All Odds* The Ultrasocial World recasts how we understand international relations through an examination of how the human evolutionary predisposition to be ultrasocial as a species impacts which political ideas succeed, transform, manipulate, and inspire on a global scale. At a time when pessimism about our current world order is at an all-time high, this book overturns widespread assumptions that international relations is mainly about conflict, power, and national self-interest. In the last 10-20 years, scientists have discovered that as a species, we are biologically hard-wired, soft-wired, and pre-wired to be other-regarding and cooperative. Humans are an ultrasocial species, and yet this predisposition is completely ignored in governments across the world. Political leaders, experts, and the media have cultivated a myopic vision of global conflict, feeding an obsession on crises of the moment rather than recognizing frequent and significant breakthroughs in peaceful cooperation and overall trends in the decline of violence. This book shows how, time and time again, our ultrasocial predisposition has pushed us towards big ideas that inspire and bring us together around the power of possibility. Featuring original research on international cooperation in outer space exploration, European Union integration, nuclear weapons, and climate change among other examples, Mai'a K. Davis Cross shows ultrasociality at work in a range of contexts. Tracing the path from social neuroscience and evolutionary biology among others to the power of ideas to international agreements, *International Cooperation Against All Odds* opens up an entirely new understanding of world politics. If we recognize our nature as a species and the potential we have to work together, we can start to transform institutions and devise policies that take advantage of this. The book ends with a roadmap to promote more international cooperation and eventually a more stable, peaceful world order.

*Gathered in my Name* William T. Cavanaugh, 2020-12-28. This volume differs from many

quintcentennial discussions of the Protestant Reformation and ecumenical scholarship more generally in that it shifts the focus from Europe and the West to the global South where ecumenism's promises and challenges are quite different. In postcolonial and post-missionary Africa, the churches continue to expand; competition among denominations is lively and Christian rivalry with Islam is often a reality. In Latin America, Protestants have severely eroded the Catholic Church's hegemony originally forged in the zeal of the Counter Reformation to combat the perceived errors of Luther and Calvin. In India, the Christian churches are a tiny beleaguered minority facing an increasingly militant Hindu nationalism. These essays pay close attention to the different contexts of intra-Christian relationships worldwide, the actual situation on the ground. If ecumenism will succeed, it cannot be simply a matter of experts at a conference attempting to agree about doctrines abstracted from the contexts in which they were forged, the contexts in which doctrinal disagreements caused ecclesial ruptures, or the contexts in which Christians continue to live out our divided existence. This volume attempts to be sensitive to the lived experience of divided Christians in whatever part of the world they find themselves.
