*Beyond* Catherine Wolff, 2022-05-24 Beautifully written expertly researched and masterfully presented this tour of how heaven has been understood throughout history is absolutely fascinating James Martin SJ author of *Jesus A Pilgrimage* A smart and thought provoking cultural history of heaven What do we think of when we think about heaven What might it look like Who or what might be there Since humans began to huddle together for protection thousands of years ago these questions have been part of how civilizations and cultures define heaven the good place beyond this one From Christianity to Islam to Hinduism and beyond from the brush of Michelangelo to the pen of Dante people across millennia have tried to explain and describe heaven in ways that are distinctive and analogous unique and universal In this engrossing cultural history of heaven Catherine Wolff delves into how people and cultures have defined heaven over the centuries She describes how different faiths and religions have framed it how the sense of heaven has evolved and how nonreligious influences have affected it from the Enlightenment to the increasingly nonreligious views of heaven today Wolff looks deep into the accounts of heaven to discover what is common among them and what makes each conception distinct and memorable The result is *Beyond* an engaging thoughtful exploration of an idea that is central to our humanity and our desire to define an existence beyond death

*Food and Feast in Modern Outlaw Tales* Alexander L. Kaufman, Penny Vlagopoulos, 2019-03-04 This collection of scholarly essays presents new work from an emerging line of inquiry modern outlaw narratives and the textual and cultural relevance of food and feasting Food its preparation and its consumption is presented in outlaw narratives as central points of human interaction community conflict and fellowship Feast scenes perform a wide variety of functions serving as cultural repositories of manners and behaviors catalysts for adventure or moments of regrouping and redirecting narratives The book argues that modern outlaw narratives illuminate a potent cross cultural need for freedom solidarity and justice and it examines ways in which food and feasting are often used to legitimate difference create discord and manipulate power dynamics

***Crusoe and His Consequences*** James Dunkerley, 2019-11-07 300 years after it was first published Daniel Defoe's *Robinson Crusoe* remains hugely influential and hotly debated Since its initial release in 1719 discussions have surrounded the novel's depiction of individual solitude and work colonial and racial relations and mankind's relationship with the rest of the animal world To this day *Crusoe*'s depiction of self reliance and rugged individualism is often idealized in economics textbooks mainstream politics and popular culture But many have also criticized this approach most notably Karl Marx who was one of the first in decrying the efforts of classical economists to extract the rational actor and marginalist calculator from the island castaway without reference to social history Alongside a precis with surprising revelations for those not familiar with the detail of the story and a rich biographical sketch of its creator *Crusoe and His Consequences* draws on a range of writers including Adam Smith Jean Jacques Rousseau Jacques Derrida and Jurgen Habermas to bring the debates surrounding Defoe's first novel vividly to life

***Journey through the Underworld (2010 Edition - EPUB)***

Asiapac Editorial,2018-10-30 In Chinese culture the underworld is seen as a horrendous place where the evil are severely punished for their misdeeds For example you get your tongue ripped out for spreading nasty rumours or your eyes gouged out for peeping The concept of the underworld is so popular that it is portrayed in Chinese theme parks around the world including Haw Par Villa a mythological theme park in Singapore and the City of Ghosts in Fengdu China This graphical presentation with the bizarre and gory depiction of the ten Courts of Hell will be one hell of a ride for you **Otherworlds** Aisling Nora Byrne,2016 This book offers a new perspective on the otherworlds of medieval literature These fantastical realms are among the most memorable places in medieval writing by turns beautiful and monstrous alluring and terrifying Passing over a river or sea or entering into a hollow hill heroes come upon strange and magical realms These places are often very beautiful filled with sweet music and adorned with precious stones and rich materials There is often no darkness time may pass at a different pace and the people who dwell there are usually supernatural Sometimes such a place is exactly what it appears to be the land of heart s desire but the otherworld can also have a sinister side trapping humans and keeping them there against their will Otherworlds Fantasy and History in Medieval Literature takes a fresh look at how medieval writers understood these places and why they found them so compelling It focuses on texts from England but places this material in the broader context of literary production in medieval Britain and Ireland The narratives examined in this book tell a rather surprising story about medieval notions of these fantastical places Otherworlds are actually a lot less other than they might initially seem Authors often use the idea of the otherworld to comment on very serious topics It is not unusual for otherworld depictions to address political issues in the historical world Most intriguing of all are those texts where locations in the real world are re imagined as otherworlds The regions on which this book focuses Britain Ireland and the surrounding islands prove particularly susceptible to this characterization The Consent of the Governed Gillian Brown,2001 What made the United States what it is began long before a shot was fired at a redcoat in Lexington Massachusetts in 1775 The theories of reading developed by John Locke were the means by which a revolutionary attitude toward authority was disseminated throughout the British colonies in North America **The Creators** Daniel J. Boorstin,2012-04-11 By piecing the lives of selected individuals into a grand mosaic Pulitzer Prize winning historian Daniel J Boorstin explores the development of artistic innovation over 3 000 years A hugely ambitious chronicle of the arts that Boorstin delivers with the scope that made his Discoverers a national bestseller Even as he tells the stories of such individual creators as Homer Joyce Giotto Picasso Handel Wagner and Virginia Woolf Boorstin assembles them into a grand mosaic of aesthetic and intellectual invention In the process he tells us not only how great art and great architecture and philosophy is created but where it comes from and how it has shaped and mirrored societies from Vedic India to the twentieth century United States Literary Translation and the Making of Originals Karen Emmerich,2017-09-21 Literary Translation and the Making of Originals engages such issues as the politics and ethics of translation how aesthetic categories and market forces contribute

to the establishment and promotion of particular originals and the role translation plays in the formation re formation and deformation of national and international literary canons By challenging the assumption that stable originals even exist Karen Emmerich also calls into question the tropes of ideal equivalence and unavoidable loss that contribute to the low status of translation translations and translators in the current literary and academic marketplaces

**The Poetics of Translation** Geneviève Robichaud, 2024-07-15 Translation is a vital method of not just reading but writing and forms the basis of an exciting range of critical artistic and literary opportunities Combining close readings of literary texts alongside astute critical observations from works by Avital Ronell and Walter Benjamin amongst others The Poetics of Translation re examines key translation studies concepts challenging our sometimes pragmatic understanding of translation and asking what it is that the discipline can make visible By highlighting the possibilities of translation as an art form in contemporary innovative writing practices Geneviève Robichaud reveals translation s creative and critical potential arguing that even those literary works that are not exactly translations gain in being apprehended as such The Poetics of Translation values oblique even unfinished sources of meaning dwelling in the speculative spaces of texts and drawing attention to translation as poesis as creating that which is tangible and valuable Situated at the juncture of

WHAT IS FAKE AND WHAT IS TRUE** Maximillien De lafayette, Fictional Matter Helen Thompson, 2016-12-02 In a groundbreaking study of the relationship between chemistry and literary history Helen Thompson explores the ways in which chemical conceptions of matter shaped eighteenth century British culture Although the scientific revolution championed experimental sense based knowledge chemists claimed that perceptible bodies were made of invisible particles or corpuscles Neither modern elements nor classical atoms corpuscles were reactive divisible units of matter Imperceptible but real the corpuscle transformed empirical knowledge in early modern science and the novel Thompson offers new analyses of the chemistry alchemy color theory physiology environmental science and medicine pioneered by Robert Boyle Isaac Newton Stephen Hales John Mitchell John Arbuthnot and Thomas Sydenham to argue that they shaped cultural conceptions of racial class sex and species identity Juxtaposing science with readings of novels by Daniel Defoe Eliza Haywood Jonathan Swift Samuel Richardson Henry Fielding William Rufus Chetwood and Penelope Aubin she shows how at the level of form as well as character novels represent perceptual knowledge that refers not to innate essence but to dynamic and unstable relations The realist narrative mode that experimental science bequeaths to literary history *Fictional Matter* argues does not transparently mirror perceptible objects Instead novels represent the forms and relations through which imperceptible particles stimulate sensory experience In this lucid revisionary analysis of corpuscular chemistry Thompson advances a new account of the influence of experimental science and empirical knowledge on the emergent realist novel The Publishers Weekly, 1922 Searching for Eternity Donald R. Morse, 2000 What happens when we die Do we simply cease to exist with our consciousness obliterated for all eternity Or do we have an enduring soul that can continue to experience awareness and some form of ongoing life Does God exist Without a creator how can the universe exist What is the purpose of the universe and what is its ultimate fate Does our behavior in day to day life really influence what happens to us after we die Why do many people believe in a heaven and a hell What is the basis of these beliefs Should we be anxious about our death or just enjoy life in the here and now Can these ultimate mysteries be solved by science What does science already know about the mysteries of creation Sooner or later all of us will face the stark reality of death Many people go through life with an increasing awareness and increasing anxiety about their eventual fate Dr Don Morse a scientist who believed in the absolute finality of death did too Then his near death experience led him on a quest to uncover what science knows about the nature of death Dr Morse's subsequent spiritual journey led him through the entire realm of science and religious beliefs until he came to an inescapable conclusion Some form of an afterlife must exist Join Dr Morse as he summarizes the vast research and data leading to this
