After School Prevention Programs For At Risk Students:

After-School Prevention Programs for At-Risk Students Elaine Clanton Harpine, 2013-06-12 After School Prevention Programs for At Risk Students offers professionals a detailed framework for developing and enhancing after school programs. Emphasizing a prevention focus and a group centered interactive approach, the book's year long model combines education and counseling, incorporating key therapeutic objectives to foster academic and behavior skills and reduce problems in and outside class. Practical step by step guidelines for creating and implementing programs include clear rationales, instructive design, and case examples, and ready to use interventions. The author also provides guidance on developmental, gender, and cultural considerations, the challenges of maintaining progress over the course of the school year, and the handling of severe learning and emotional problems. Among the topics covered: Organizing a group centered after school program; Combining learning and counseling into one curriculum; The role of motivation in an ongoing year long program; Group process, self efficacy, cohesion, applying the principles of change; Interaction in a year long program; Solving problems and conflicts. *After School Prevention Programs for At Risk Students* is an essential reference for scientist practitioners, clinicians, and academics in such disciplines as school psychology, childhood education, social work, psychotherapy, and counseling, and learning and instruction.

Group-Centered Prevention in Mental Health Elaine Clanton Harpine, 2015-07-21 This book presents the concept of group centered prevention and provides explanations and exercises for learning the method and teaching it to others. Detailed studies offer evidence for the continuing importance of prevention in mental well being and distinguish group centered prevention from other group interventions by its ability to resolve incipient mental health issues and emotional problems. Case examples with adults, children, couples, and others demonstrate successful uses of group centered techniques, as well as illustrate the problems that arise in group settings. The book's ready to apply training exercises give prospective group leaders practice in starting new groups, fostering cohesion, integrating therapeutic factors into sessions, and other core skills. Featured topics include: Group centered prevention in contrast with other group interventions; Characteristics of effective leaders in group centered prevention; Benefits of prevention groups as opposed to those gained in counseling and therapy; Key constructs of self efficacy and intrinsic motivation in group centered prevention; Stages of development in new groups; Formats for developing training exercises. *Group Centered Prevention in Mental Health* is an essential resource for scientist practitioners, clinicians, and researchers, as well as graduate students in such disciplines as school psychology, social work, and public health. Its educational uses span classroom, workshop, and training settings across the health and healing disciplines.
