King,Dan Stone,2008-09

been notoriously impervious to history As modern ideas regarding notions of history came to India with colonialism it turns to the colonial period as the moment of encounter with such ideas The book examines three distinct moments in the Hindu self through the lives and writings of lower caste public figure Jotiba Phule moderate nationalist M G Ranade and Hindu nationalist V D Savarkar Through a close reading of original writings speeches and biographical material it is demonstrated that these three individuals were engaged with a modern historical and rationalist approach However the same material is also used to argue that Phule and Ranade viewed religion as living contemporaneous and capable of informing both their personal and political lives Savarkar the explicitly Hindu leader on the contrary held Hindu practices and traditions in contempt confining them to historical analysis while denying any role for religion as spirituality or morality in contemporary political life While providing some historical context this volume highlights the philosophical political ideas and actions of the three individuals discussed It integrates aspects of their lives as central to understanding their politics

War in International Society Lacy Pejcinovic,2013-04-12 Is war an institution of international society and how is it constituted as such across the evolution of international society This book is an inquiry into the purpose of war as a social institution as originally put forward by Hedley Bull It offers a comprehensive examination of what is entailed in thinking of war as a social institution and as a mechanism for order Since the terrorist

attacks of 9 11 the subject of war has become increasingly relevant with questions about who can wage war against whom the way war is fought and the reasons that lead us to war exposing fundamental inadequacies in our theorisation of war War has long been considered in the discipline of International Relations in the context of the problem of order However the inclusion of war as an institution is problematic for many How can we understand an idea and practice so often associated with coercion destruction and disorder as contributing to order and coexistence This study contends that an understanding of the core elements that establish the character of war as an institution of modern international society will give us important insights into the purpose if any of war in contemporary international relations This ground breaking book will be of strong interest to students and scholars of international relations international relations theory the English school security studies and warfare

A Political Geography of Africa E. A. Boateng, 1978-10-05 First published in 1978 this book is intended as an introductory study to the political geography of Africa It seeks in particular to underline and analyse the salient political and socio economic problems and issues which have faced Africa and its various regions and states in their search for political stability and economic viability It is the author's belief that by examining the continent's problems within a geographical and historical context readers will be enabled to gain a better understanding of their real import and make a reasonable assessment of future developments and trends For the benefit of those who are not already familiar with the meaning and scope of political geography the book begins with an introductory section outlining the principles of the subject In the concluding chapter the author examines the role of the Organisation of African Unity both as an instrument of political liberation and as a factor for the resolution of conflicts and the achievement of economic progress and political stability

Africa and the First World War De-Valera NYM Botchway, Kwame Osei Kwarteng, 2018-10-26 The First World War was a widespread conflagration in world history which despite its European origins had enormous effects throughout the world Fettered to European politics and diplomacy through colonialism Africa could not claim a position of neutrality meaning that it mobilised human and natural resources to support the imperial war effort Fighting both within and outside Africa colonised Africans who were compelled or coaxed by the colonial regimes of the warring European countries fought Europeans and Africans too The soldiers fought with great dedication and contributed significantly to successes attained by the belligerent European colonialists Similarly African non combatants like carriers brought zeal and enthusiasm to difficult wartime tasks The impact of the war on Africa was immense with far reaching consequences in specific colonies and touched the lives of all Africans under colonial rule Although the continent's connections to the war were immense and diverse these experiences are not widely known among scholars and the general public This is because over the years most studies and commemorative events of the war have centred on the European theatre of the war and its outcomes This book brings together interesting essays written by scholars of African history society and military about African experiences of the war It complements and problematises some key themes on Africa and the First World War and offers a stimulating historiographical excursion

providing possibilities for reconsidering normative conclusions on the war The volume will be of interest to general readers as well as students and researchers in different areas of scholarship including African history war studies postcolonial studies cultural studies labour history and the history of memory among others

A Systematic Geography of Africa and Australasia ... George William Webb, 1911

Marx and Lenin in Africa and Asia Harry Verhoeven, 2021-11-29

The spectres of Marx and Lenin have long loomed prominently in Africa and Asia and they still do so in the 21st century Many of the founding fathers of postcolonial republics believed socialism could transform their societies Yet what socialism meant in theory and in practice has always been highly heterogeneous and differed markedly from the European experience African and Asian movements did not simply mimic the ideas and institutions of Soviet or European Marxists but endeavoured to define their own experimenting with a variety of interpretations and in the process adapting doctrines and templates to their unique contexts This volume brings together anthropologists historians and political scientists from around the world to reflect on three great challenges which various types of socialists in Africa and Asia have had to simultaneously contend with in their articulations of liberation how to build up empirical and juridical statehood how to forge a nation after colonial divide and rule and how to position themselves in an international order not of their making In a post colonial world this helps centre a key question running through the different chapters what can African and Asian imaginaries institutions and practices tell us about socialism as a global phenomenon The chapters in this book were originally published as a special issue of Third World Quarterly

The Third Book of History: Containin Ancient History in Connection with Ancient Geography. Designed as a Sequel to the First and Second Books of History, by the Author of Peter Parley's Tales [i.e. S. G. Goodrich]. Third Edition BOOK, 1836

Pan-Africanism in Modern Times Olayiwola Abegunrin, Sabella Ogbobode Abidde, 2016-06-15

For about one hundred years Pan Africanism as a social cultural economic political and philosophical idea thrived Towards the tail end of the twentieth century however it waned But in more recent times there has been noticeable resurgence And as we approach the second decade of the twenty first century there are indications of significant transformations vis vis the role and place of Pan Africanism and Pan Africanists Consequently this book offers a new further and better understanding of Pan Africanism not just from the traditional African and African American points of view but also from a global perspective It does so by offering an analysis of its early years in terms of the personalities ideas and conferences that shaped it it also examines many of the factors that brought about its decline and its eventual rebirth Contributing to this seminal work are scholars of different but complementary styles and intellect who deviate from the more traditional or obvious approaches For instance one of the chapters explores Pan Africanism from the geographic perspective while another examines the role and place of women in the Pan African movement There are also voices that advance the conversation from the regional and continental viewpoint hence chapters that investigate the status of Pan Africanism in Latin America in the Caribbean and Islam and Pan Africanism in the modern world Ethnonationalism and xenophobia are also

part of the treatise because increasingly these injurious phenomena are reemerging in Africa's landscape and consciousness. In an increasingly interdependent and interrelated world, this book also suggests that Pan Africanism will undergo a metamorphosis; problems and challenges will be seen and tackled from the globalization and global common perspective. Pan Africanism in Modern Times goes beyond the historicity of Pan Africanism and examines the challenges, concerns, and constraints it faces and also examines it from an inclusive perspective to have a broader understanding of this phenomenon and its future trajectory.
