Against The Tides Against All Odds:

Against All Odds Aline Hanna, 2010-09-07 This collection of Poetry was compiled by my late father George Matthews who in his teenage years enlisted in the Army in World War One He was sent to France and seriously wounded He did not talk much about the War veterans are not inclined to talk about their experiences and all the horrors they endured but he did tell me he remembered the shell hitting the trench in which he was He remembers running for cover but when he was found he was thought to be dead He was not however and possibly due to the delay in finding this out gangrene had set in and he had to have his right arm and left leg amputated During his stay in hospital in London he underwent thirteen operations and right up until he died at the age of 62 there were still pieces of shrapnel embedded in his body He was the most wonderful father to me and we shared many things including his love of music and flowers He had a wonderful bass voice and sang in concerts many times He was the most courageous man I have ever met nothing daunted him he even walked without the aid of a cane or crutch He had however to learn to write with his left hand and by way of practice gathered up this collection of poetry His book was discovered years after his death and because of the effort it must have been for him to do this I thought I should try in some way to compile this collection in book form His writing was so clear it took no effort on my part to make a copy I have included some words I wrote after he died expressing my love and admiration for him called The Dearest One I Knew I hope you enjoy the variety of his work and on next Armistice Day spare a thought for men like him who survived the horrors of war and still do but face life with courage and fortitude Aline Hanna Matthews **Against the Tide, Towards the**

Kingdom Jenny Duckworth, Justin Duckworth, 2011-07-01 *Against the Tide Towards the Kingdom* is the story of the Urban Vision community in New Zealand This book recounts the story of a group of young Christian adults who over the last fifteen years have relocated to the colorful ends of their city to share life with those who are struggling homeless sick poor neglected or otherwise marginalized The community has grown over time to seven neighborhoods where on any given day you may find Urban Visionites growing vegetables amidst the concrete teaching English to refugees offering alternative education programs to out of school teenagers fostering children doing church with the homeless offering friendship to the mentally ill roasting fair trade coffee running kids clubs moms groups tenant meetings or just sharing yet another cup of tea with their neighbors In fact sharing is a good summary of the whole shape of this exciting movement They share homes food money vehicles jobs prayers dreams conversations fun tears pain hope healing transformation they share the whole of life with each other and with their neighbors They live the gospel this good news of Jesus Against the Tide Martín López Corredoira, Carlos Castro Perelman, 2008 Nobody should have a monopoly of the truth in this universe The censorship and suppression of challenging ideas against the tide of mainstream research the blacklisting of scientists for instance is neither the best way to do and filter science nor to promote progress in the human knowledge The removal of good and novel ideas from the scientific stage is very detrimental to the pursuit of the truth There are instances in which a mere unqualified belief

can occasionally be converted into a generally accepted scientific theory through the screening action of refereed literature and meetings planned by the scientific organizing committees and through the distribution of funds controlled by club opinions. It leads to unitary paradigms and unitary thinking not necessarily associated to the unique truth. This is the topic of this book to critically analyze the problems of the official and sometimes illicit mechanisms under which current science physics and astronomy in particular is being administered and filtered today along with the onerous consequences these mechanisms have on all of us. Apart from the editors Juan Miguel Campanario, Brian Martin, Wolfgang Kundt, J. Marvin Herndon, Marian Apostol, Halton C. Arp, Tom Van Flandern, Andrei P. Kirilyuk, Dmitri Rabounski, and Henry H. Bauer, all of them professional researchers reveal a pessimistic view of the miseries of the actual system while a glimmer of hope remains in the leitmotiv claim towards the freedom in doing research and attaining an acceptable level of ethics in science.

Against All Odds Bradley Bowden, 2008. The history of the United Firefighters Union (UFU) in Queensland is an unusual and inspiring story. In an era of large amalgamated unions, it remains a small union servicing the special needs of firefighters and at a time when only 20 percent of Australian workers belong to a trade union, the UFU still commands the loyalty of virtually all Queensland firefighters. While most Australian unions have been in existence since at least the early twentieth century, the UFU was only registered in Queensland in 1976. Prior to this date, firefighters belonged to the Australian Workers Union. They only secured their own union after a bitter four-year dispute in Rockhampton that involved the dismissal and eventual reinstatement of that city's UFU firefighters. If the UFU is an unusual union, then firefighters are also atypical unionists. Most of their working lives are spent carrying out routine training drills. But at any moment, this routine can be interrupted by a call out where they can be exposed to mayhem and traumatic death. Fire fighting demands the highest levels of physical fitness, experience, and courage. It also requires the capacity to behave in all circumstances as a team member rather than as an individual. While a sense of mateship is common in most jobs, the dangers inherent in fire fighting create special bonds. Such bonds have created a unique, tightly knit workforce whose solidarity is reflected in their union.

Sandra Hanson,2009-06-15 They looked at us like we were not supposed to be scientists says one young African American girl describing one openly hostile reaction she encountered in the classroom In this significant study Sandra Hanson explains that although many young minority girls are interested in science the racism and sexism in the field discourage them from pursuing it after high school Those girls that remain highly motivated to continue studying science must swim against the tide Hanson examines the experiences of African American girls in science education using multiple methods of quantitative and qualitative research including a web survey and vignette techniques She understands the complex interaction between race and gender in the science domain and using a multicultural and feminist framework of analysis addresses the role of agency and resistance that encourages and sustains interest in science in African American families and communities

Meiring,2009-11 Women in the Second Anglo Boer War demonstrated great heroism Theirs is a remarkable history derived from diaries and letters written during their incarceration in concentration camps Against the Tide illustrates the fortitude of the brave Dutch women and children in their struggle against impossible circumstances in the attempt to save their country from the stronger forces of the British usurper Not many today are aware that the British government established concentration camps to imprison innocent civilians nearly forty years before Germany did so Their intention was to cause a quick surrender by such intimidation However the imprisoned Dutch women watching their children dying in these camps developed a deep animosity toward their aggressors and contrary to expectations it only spurred the women on to more defiance that then strengthened the men s resolve to keep fighting Among the few British sympathizers Emily Hobhouse a tenacious justice seeking English woman spearheaded a major public awareness of the untenable conditions in the camps

She defied her own government in a risky plan to help ease the suffering of the captive women and children in South Africa. The Boer women demonstrated many acts of bravery including daring espionage and actually fighting alongside their men against overwhelming enemy forces. And after the war was lost they played an active role in forging a new language and a new Afrikaner nation from the embers of that tragedy.

Against the Tide Richard Adams Carey, 1999 With its spectacular beaches and charming towns Cape Cod is known around the world as a vacation spot and a summer retreat for the well to do. But there is another Cape Cod a hidden hardscrabble year round world whose hunter gatherer economy dates back to the Bay Colony. The world of the independent fisherman is one of constant peril of arcane folkways and expert knowledge of calculated risk and self reliance and of freedom won daily through backbreaking solitary work. It is a way of life deep in the American grain. Haunted by the numbers of family fishermen who have recently been forced to abandon the profession Richard Adams Carey spent a year among a handful of men who stubbornly refuse to do so. Reminiscent of the work of William Warner and Joseph Mitchell **AGAINST THE TIDE** is a masterly profile of four New England fishermen in which every page opens onto something more profound maritime history maritime ecology and the poetic celebration of a special American place.

Against All Odds Phil Ashby, 2003-08-18. **Against All Odds** is the incredible true story of that escape and of the heart-pounding courage of Major Phil Ashby who defeated the rebel forces of Sierra Leone and became a living testament to the power of the human spirit and the sheer determination to survive. In West Africa's war-ravaged Sierra Leone, no one was getting out alive. It took the courage of one man to change the odds. By 1990, Sierra Leone, once hailed as the Athens of West Africa, had degenerated into a savage battlefield overtaken by rebel forces in a devastating civil war. Assigned to spearhead the mission as UN peacekeeper was Major Phil Ashby. But by 2000, the rebel occupation he had worked so diligently to disarm rose again to control an astounding two-thirds of the country. The enemy's mission: get rid of the outside opposition. First, a number of Ashby's colleagues were tortured and finally butchered, and more than 500 were taken as hostages. Among the hostages was Phil Ashby. Miles from civilization with no rescue in sight, Ashby and three of his men knew that their fate was up to them alone. Lost deep inside the rebels' heartland, unarmed and outnumbered 20 to 1, Ashby devised a plan to escape from the hostile jungles that would test fate and challenge all reason. **AGAINST ALL ODDS** sandhiya

Against All Odds Paul Porwoll, 2014-02-03 The tranquility of the magnificently restored Saint Andrews Parish Church surrounded by stately oaks and ancient gravestones belies a tumultuous past. If its walls could talk they would tell a story as old as the human condition. Founded in the forest of a new colony, this simple Anglican church served planters and their slaves during the heyday of rice and indigo. Before the Civil War, ministry shifted to the slaves and afterward to freed men and women. Following years of decline and neglect, Saint Andrews rose like the phoenix. The history of the oldest surviving church south of Virginia and the only remaining colonial cruciform church in South Carolina is one of wealth and poverty, acclaim and anonymity, slavery and freedom, war and peace, quarrelling and cooperation, failure and achievement. It is the story of a church that has refused to die against all odds.
