A Search For Israel:

Israel in Search of War Motti Golani, 1998-01-01 This volume examines the events of the Sinai Campaign of 1955-56. The Suez Crisis and the Sinai Campaign were the final stage in a process rather than an autonomous episode. In Search of 'Ancient Israel' Philip R. Davies, 2015-11-19 The appearance of *In Search of Ancient Israel* generated a still raging controversy about the historical reality of what biblical scholars call Ancient Israel. But its argument not only takes in the problematic relationship between Iron Age Palestinian archaeology and the biblical Israel but also outlines the processes that created the literature of the Hebrew Bible: the ideological matrix, the scribal milieu and the cultural adoption of a national literary archive as religious scripture as part of the process of creating Judaism. As such, in this volume Philip R. Davies challenges the whole spectrum of scholarly consensus about the origins of Israel and its scriptures in a manner that is both learned and accessible. For this new edition, Davies has provided a new extended introduction in which he considers how the debate has raged since the book was first published and in which he repositions this classic work within the present scholarly context. *Scripture Guide in a Search After the Ten Tribes, Or the "Whole House of Israel" ... By M. M. M. [Texts from the Bible.]* M. M. M., 1876

Intellectual Property Law and Practice in Israel Eran Liss, Dan Adin, 2012-05-31 *Intellectual Property Law and Practice in Israel* provides a comprehensive overview of Israeli intellectual property laws and an in-depth analysis of the pertinent case law. *In Search of Pre-Exilic Israel* Oxford Old Testament Seminar, John Day, 2004-12-20 In recent years, there has been a tendency among certain scholars to claim that little can be known about pre-exilic Israel because the Old Testament was only compiled in the post-exilic period. For example, Philip Davies, Thomas Thompson, Neils Peter Lemche. One scholar, Lemche, has even claimed that the Old Testament is a Hellenistic work. The purpose of this book is to argue that this is an extreme and untenable position and that though much of the Old Testament was indeed edited in the exilic or post-exilic period, many of the underlying sources used go back to the pre-exilic period. When critically analyzed, these sources can shed much light on the pre-exilic period. This important work is the product of a team of seventeen international scholars, no fewer than five of whom are Fellows of the British Academy. None of the chapters has previously been published.
