A Sociology Of Religious Emotion:

A Sociology of Religious Emotion Ole Riis, Linda Woodhead, 2010-06-24 Thoughtfully illustrated with photographic plates that capture the global range of religions and cultures discussed Book Jacket [A Sociology of Religious Emotion](#) Ole Riis, Linda Woodhead, 2010 **Emotions and Religious Dynamics** Nathaniel A. Warne, 2016-05-13 We all feel emotions and are moved to action by them Religious communities often select and foster certain emotions over others Without understanding this it is hard to grasp the way groups view the world and each other Often it is the underlying emotional pattern of a group rather than its doctrines that either divides it from or attracts it to others These issues so important in today's world are explored in this book in a genuinely interdisciplinary way by anthropologists psychologists theologians and historians of religion and in some detailed studies of well and less well known religious traditions from across the world

Emotions and Religious Dynamics Mr Nathaniel A Warne, Professor Douglas J. Davies, 2014-02-28 We all feel emotions and are moved to action by them Religious communities often select and foster certain emotions over others Without understanding this it is hard to grasp the way groups view the world and each other Often it is the underlying emotional pattern of a group rather than its doctrines that either divides it from or attracts it to others These issues so important in today's world are explored in this book in a genuinely interdisciplinary way by anthropologists psychologists theologians and historians of religion and in some detailed studies of well and less well known religious traditions from across the world

[Emotion, Identity, and Religion](#) Douglas J. Davies, 2011-03-10 Religions manage human emotions by coupling them with core cultural values and particular religious traditions favour a distinctive pattern or syndrome of emotions and values Douglas J Davies uses insights from anthropology sociology cognitive science and psychology to explore the dynamics of emotional life that forge our human identity [Paul's Emotional Regime](#) Ian Y. S. Jew, 2020-10-15 In his letters Paul speaks often of his emotions and also promotes certain feelings while banishing others This indicates that for Paul emotion is vital However in New Testament studies the study of emotions is still nascent current research in the social sciences highlights its cognitive and social dimensions Ian Y S Jew combines rigorous social scientific analysis and exegetical enquiry to argue that emotions are intrinsic to the formation of the Pauline communities as they encode belief structures and influence patterns of social experience By taking joy in Philippians and grief in 1 Thessalonians as representative emotions and contrasting Paul's approach with that of his Stoic contemporaries Jew demonstrates that authorized feelings have socially integrating and differentiating functions by reinforcing the shared theological realities upon which emotional norms are based group belonging is bolstered Simultaneously authorized emotions fortify the theological boundaries between Christians and others which strengthens group solidarity in the Church by accentuating its members insider status Using this framework heuristically Jew explores how the interplay of symbolic ritual and social elements within Paul's eschatological worldview reinforces emotional norms and demonstrates that attention to emotion can only deepen our understanding of the social

formation of the early believers A Sociology of Prayer Professor Linda Woodhead, Professor Giuseppe Giordan, 2015-07-28 Why do people pray and in what situations and settings Does prayer imply a god and if so what sort A Sociology of Prayer addresses these fundamental questions and opens up important new debates Drawing from religion anthropology and historical perspectives the contributors focus particularly on prayer as a social and personal matter and situate prayer in the conditions of complex late modern societies worldwide Presenting fresh empirical data in relation to original theorising the volume examines the material aspects of prayer including the objects bodies symbols and spaces with which it may be integrally connected *Ancient Jewish Prayers and Emotions* Stefan C. Reif, Renate Egger-Wenzel, 2015-11-13 Given the recent interest in the emotions presupposed in early religious literature it has been thought useful to examine in this volume how the Jews and early Christians expressed their feelings within the prayers recorded in some of their literature Specialists in their fields from academic institutions around the world have analysed important texts relating to this overall theme and to what is revealed with regard to such diverse topics as relations with God exegesis education prophecy linguistic expression feminism happiness grief cult suicide non Jews Hellenism Qumran and Jerusalem The texts discussed are in Greek Hebrew and Aramaic and are important for a scientific understanding of how Rabbinic Judaism and Early Christianity developed their approaches to worship to the construction of their theology and to the feelings that lay behind their religious ideas and practices The articles contribute significantly to an historical understanding of how Jews maintained their earlier traditions but also came to terms with the ideology of the dominant Hellenistic culture that surrounded them **A Cultural History of the Emotions in the Age of Romanticism, Revolution, and Empire** Susan J. Matt, 2020-08-20 Between 1780 and 1920 modern conceptions of emotion conceptions still very much present in the 21st century first took shape This book traces that history charting the changing meaning and experience of feelings in an era shaped by political and market revolutions romanticism empiricism the rise of psychology and psychoanalysis During this period the word emotion itself gained currency gradually supplanting older vocabularies and visions of feeling Terms to describe feelings changed so too did conceptions of emotions proper role in politics economics and culture Political upheavals turned a spotlight on the role of feeling in public life in domestic life sentimental bonds gained new importance as families were transformed from productive units to emotional ones From the halls of parliaments to the familial hearth from the art museum to the theatre from the pulpit to the concert hall lively debates over feelings raged across the 19th century **The Betrayal of the Humanities** Bernard M. Levinson, Robert P. Ericksen, 2022-09-06 How did the academy react to the rise dominance and ultimate fall of Germany's Third Reich Did German professors of the humanities have to tell themselves lies about their regime's activities or its victims to sleep at night Did they endorse the regime Or did they look the other way whether out of deliberate denial or out of fear for their own personal safety The Betrayal of the Humanities The University during the Third Reich is a collection of groundbreaking essays that shed light on this previously overlooked piece of history The Betrayal of the Humanities

accepts the regrettable news that academics and intellectuals in Nazi Germany betrayed the humanities and explores what went wrong what occurred at the universities and what happened to the major disciplines of the humanities under National Socialism The Betrayal of the Humanities details not only how individual scholars particular departments and even entire universities collaborated with the Nazi regime but also examines the legacy of this era on higher education in Germany In particular it looks at the peculiar position of many German scholars in the post war world having to defend their own work or the work of their mentors while simultaneously not appearing to accept Nazism **A Plea for Embodied Spirituality**

Fraser Watts,2022-07-07 The body is crucial to religious life but there has been little practical attention given to how to make a helpful reality of this fact Strong forms of philosophical dualism have been widely abandoned by post war theologians in favour of a more integrated view of human nature but guidance on the role of the body in Christian spirituality remains fragmentary Focusing particularly on drawing out practical implications for religious life and ministry this book surveys the many ways in which the body plays an important role in religious and spiritual life drawing on scientific research theology and philosophy African Pentecostals in Catholic Europe Annalisa Buttici,2016-04-04 Catholic Italy is a destination for migrants from Nigeria and Ghana who bring their own form of Christianity Pentecostalism the most Protestant of Christian faiths At the heart of Annalisa Buttici s ethnography is a paradox Believers on both sides are driven by a desire to find sensuous material ways to make the divine visible and tangible *Restless* David J. Gillard,2022-01-06 Why do many popular songs positively reference God if our culture is widely viewed as secular Why is it a challenge to tell the Christian story when many say they are spiritual and believe in God Why do we draw so much meaning from the popular songs we listen to And might a deeper understanding of popular music culture help us to explore the bigger stories we listen to throughout our lives such as the Christian story Primarily using Zygmunt Bauman s understanding of liquid modernity we look at the social forces that shape Western society and consider why while many are looking for authentic ontologically based stories to understand their life experiences historic providers of the big stories that shape our lives such as the church favor a different epistemological way of telling them How do these different approaches to storytelling affect their reception and what insight might we draw from that Whilst this book is written primarily with those in Christian ministry in mind it will be of interest too to those who use music to explore life experiences through their work who are interested in the social forces that shape society or who simply enjoy listening to popular music *Religion in Consumer Society* François Gauthier,2016-04-08

Presenting an overview of an emerging field in the study of contemporary religion this book together with a complementary volume Religion in the Neoliberal Age explores issues of religion neoliberalism and consumer society Claiming that we have entered a new phase that implies more than the recasting of state religion relations the authors examine how religious changes are historically anchored in modernity but affected by the commoditization mediatization neoliberalization and globalization of society and social life Religion in Consumer Society explores religion as both shaped by consumer culture

and as shaping consumer culture Following an introduction which critically analyses studies on consumer culture and integrates scholarship in the sociology of religion this book explores the following topics how consumerism and electronic media have shaped globalized culture and how this is affecting religion the dynamics and characteristics of often overlooked middle class religion and how these relate to globalization and differences between developed and emerging countries emerging trends and how we understand phenomena as different as mega churches and holistic spiritualistic journeys and how the pressures of consumer culture act on religious traditions indigenous and exogenous the politics of religious phenomena in the Age of Neoliberalism and the hybrid areas emerging from these reconfigurations of religion and the market Outlining changes in both the political institutional and cultural spheres the contributors offer an international overview of developments in different countries and state of the art representation of religion in the new global political economy

Emotion, Ritual and Power in Europe, 1200-1920 Merridee L. Bailey, Katie Barclay, 2017-02-25 This volume spans the fourteenth to nineteenth centuries across Europe and its empires and brings together historians art historians literary scholars and anthropologists to rethink medieval and early modern ritual The study of rituals when it is alert to the emotions which are woven into and through ritual activities presents an opportunity to explore profoundly important questions about people's relationships with others their relationships with the divine with power dynamics and importantly with their concept of their own identity Each chapter in this volume showcases the different approaches theories and methodologies that can be used to explore emotions in historical rituals but they all share the goal of answering the question of how emotions act within ritual to inform balances of power in its many and varied forms Chapter 5 of this book is available open access under a CC BY 4.0 license

Psychology in Nietzsche's Criticism of Religion Jan-Olav Henriksen, 2022-11-14 Friedrich Nietzsche claimed to be a psychologist This claim is substantiated in his criticism of religion In this book Jan Olav Henriksen provides new perspectives on Nietzsche's contribution to such criticism by applying elements from attachment theory and self psychology The result is that Nietzsche's insights into the problematic elements in religion point beyond what he was able to articulate based on the psychological resources available to him Henriksen sheds new light on the psychological dimensions in Nietzsche's individualism his understanding of God morality metaphysics and emotions and demonstrates how Nietzsche's criticism of religion is rooted in both psychological splitting and a profound loss of the orientational resources religion provided in his childhood

State Responses to Minority Religions Dr David M Kirkham, 2014-01-01 The response of states to demands for free exercise of religion or belief varies greatly across the world In some places religions come as close as imaginable to autonomous existences with little interference from government In other cases religion finds itself grinding out a meagre living if at all under the jealously watchful eye of the state This book provides a legal and normative overview of the variety of responses to minority religions available to states Exploring case studies ranging from Islamic regions such as Indonesia Pakistan and the wider Middle East to Western Europe Eastern

Europe China Russia Canada and the Baltics contributors include international scholars and experts in law sociology religious studies and political science This book offers invaluable perspectives on how minority religions are currently being received reviewed challenged or ignored in different parts of the world **Power and Emotion in Ancient Judaism** Ari Mermelstein,2021-06-17 Offers a theoretical account of the relationship between power emotion and identity through an analysis of ancient Jewish texts Sources for the History of Emotions Katie Barclay, Sharon Crozier-De Rosa, Peter N. Stearns,2020-06-03 Offering insights on the wide range of sources that are available from across the globe and throughout history for the study of the history of emotions this book provides students with a handbook for beginning their own research within the field Divided into three parts Sources for the History of Emotions begins by giving key starting points into the ethical methodological and theoretical issues in the field Part II shows how emotions historians have proved imaginative in their discovering and use of varied materials considering such sources as rituals relics and religious rhetoric prescriptive literature medicine science and psychology and fiction while Part III offers introductions to some of the big or emerging topics in the field including embodied emotions comparative emotions and intersectionality and emotion Written by key scholars of emotions history the book shows readers the ways in which different sources can be used to extract information about the history of emotions highlighting the kind of data available and how it can be used in a field for which there is no convenient archive of sources The focused discussion of sources offered in this book which not only builds on existing research but encourages further efforts makes it ideal reading and a key resource for all students of emotions history
