A Thousand Darkesses Lies And Truth In Holocaust Fiction:

A Thousand Darkesses Ruth Franklin, 2010-11-10 What is the difference between writing a novel about the Holocaust and fabricating a memoir Do narratives about the Holocaust have a special obligation to be truthful that is faithful to the facts of history Or is it okay to lie in such works In her provocative study *A Thousand Darkesses* Ruth Franklin investigates these questions as they arise in the most significant works of Holocaust fiction from Tadeusz Borowski's Auschwitz stories to Jonathan Safran Foer's postmodernist family history Franklin argues that the memory obsessed culture of the last few decades has led us to mistakenly focus on testimony as the only valid form of Holocaust writing As even the most canonical texts have come under scrutiny for their fidelity to the facts we have lost sight of the essential role that imagination plays in the creation of any literary work including the memoir Taking a fresh look at memoirs by Elie Wiesel and Primo Levi and examining novels by writers such as Piotr Rawicz Jerzy Kosinski W G Sebald and Wolfgang Koeppen Franklin makes a persuasive case for literature as an equally vital vehicle for understanding the Holocaust and for memoir as an equally ambiguous form The result is a study of immense depth and range that offers a lucid view of an often cloudy field **Etgar**

Unsettling Empathy Björn Krondorfer, 2020-08-11 This book is an in depth reflection and analysis on why and how unsettling empathy is a crucial component in reconciliatory processes Located at the intersection of memory studies reconciliation studies and trauma studies the book is at its core transdisciplinary presenting a fresh perspective on how to conceive of concepts and practices when working with groups in conflict The book Unsettling Empathy has come into being during a period of increasing cultural pessimism where we witness the spread of populism and the rise of illiberal democracies that hark back to nationalist and ethnocentric narratives of the past Because of this changed landscape this book makes an important contribution to seeking fresh pathways toward an ethical practice of living together in light of past agonies and current conflicts Within the specific context of working with groups in conflict this book urges for an ethical posture of unsettling empathy Empathy which plays a vital role in these processes is a complex and complicated phenomenon that is not without its critics who occasionally alert us to its dark side The term empathy needs a qualifier to distinguish it from related phenomena such as pity compassion sympathy benign paternalism idealized identification or voyeuristic appropriation The word unsettling is just this crucial ingredient without which I would hesitate to bring empathy into our conversation

Representations of Anne Frank in American Literature Rachael McLennan, 2016-08-05 This book explores portrayals of Anne Frank in American literature where she is often invoked if problematically as a means of encouraging readers to think widely about persecution genocide and victimisation often in relation to gender ethnicity and race It shows how literary representations of Anne Frank in America over the past 50 years reflect the continued dominance of the American dramatic adaptations of Frank's Diary in the 1950s and argues that authors feel compelled to engage with the problematic elements of these adaptations and their iconic power At the same time though literary representations of Frank are associated with the adaptations critics often assume that these texts unquestioningly perpetuate the problems with the adaptations This is not true This book examines how American authors represent Frank in order to negotiate difficult questions relating to representation of the Holocaust in America and in order to consider gender coming of age and forms of inequality in American culture in various historical moments and of course to consider the ways Frank herself is represented in America This book argues that the most compelling representations of Frank in American literature are alert to their own limitations and may caution against making Frank a universal symbol of goodness or setting up too easy identifications with her It will be of great interest to researchers and students of Frank the Holocaust in American fiction and culture gender

Ishiguro Denise Riley and David Grossman These figures overturn critical suppositions about consolation's kinship with ideological complaisance superficial mitigation or dubious distraction producing unsettling perceptions of solace that shape the formal and political contours of their writing Through intimate readings of novels and memoirs that explore seemingly indescribable experiences of grief trauma remorse and dread James demonstrates how they turn consolation into a condition of expressional possibility without ever promising us relief He also supplies vital traction to current conversations about the stakes of thinking with contemporary writing to scrutinize affirmative structures of feeling revealing unexpected common ground between the operations of literary consolation and the urgencies of cultural critique Discrepant Solace makes the close reading of emotion crucial to understanding the work literature does in our precarious present **Memory Work**

who defers or refuses a prescribed social destiny these novels and films are sensitive to the Eichmann problematic of the banality of evil as formulated by Hannah Arendt These Bildungsromane the study suggests are designed to address the problem of the social reproduction of normative unimaginative and conformist mindsets that can enable totalitarian politics and genocidal policies
