clean themselves several times a day you won't need to worry about bathing them. If you do decide to raise a rabbit, remember that they are not starter pets and they are not a good choice for young children. Also, you'll have to bunny proof your home. Rabbits' teeth never stop growing, so they like to chew on things. Be sure to provide your rabbit with hard wooden chew toys and keep electrical wires out of reach. When it comes to feeding your pet rabbit, think green. The idea that rabbits live on carrots is just plain wrong. Rabbits in the wild eat plants like grass and clover, and your bunny should too. Additionally, keep in mind that some rabbits grow very large. The Flemish Giant, for instance, can reach 75 centimeters in length and can weigh up to 10 kilograms. Know all the details before taking a bunny home. Above all, be sure that you want this responsibility. A rabbit isn't a cute toy to be bought today and forgotten tomorrow. It will need your care for all 8 to 12 years of its life. In return, you will gain a loving animal friend who will make your days brighter. Now bring on the bunnies.
