Heritage Rare Books Auction #6025, **A History of Modern Computing, second edition** Paul E. Ceruzzi, 2003-04-08 From the first digital computer to the dot com crash a story of individuals institutions and the forces that led to a series of dramatic transformations This engaging history covers modern computing from the development of the first electronic digital computer through the dot com crash The author concentrates on five key moments of transition the transformation of the computer in the late 1940s from a specialized scientific instrument to a commercial product the emergence of small systems in the late 1960s the beginning of personal computing in the 1970s the spread of networking after 1985 and in a chapter written for this edition the period 1995-2001 The new material focuses on the Microsoft antitrust suit the rise and fall of the dot coms and the advent of open source software particularly Linux Within the chronological narrative the book traces several overlapping threads the evolution of the computer's internal design the effect of economic trends and the Cold War the long term role of IBM as a

player and as a target for upstart entrepreneurs the growth of software from a hidden element to a major character in the story of computing and the recurring issue of the place of information and computing in a democratic society The focus is on the United States though Europe and Japan enter the story at crucial points on computing per se rather than on applications such as artificial intelligence and on systems that were sold commercially and installed in quantities *Socializziamo in inglese* Anthony J. Zambonini, 2008 *Worlds Gone Awry* John J. Han, C. Clark Triplett, Ashley G. Anthony, 2018-08-22

Dystopian fiction captivates us by depicting future worlds at once eerily similar and shockingly foreign to our own This collection of new essays presents some of the most recent scholarship on a genre whose popularity has surged dramatically since the 1990s Contributors explore such novels as *The Lord of the Flies* *The Heart Goes Last* *The Giver* and *The Strain* Trilogy as social critique revealing how they appeal to the same impulse as utopian fiction the desire for an idealized yet illusory society in which evil is purged and justice prevails **The Anime Encyclopedia, 3rd Revised Edition** Jonathan Clements, Helen McCarthy, 2015-02-09 Impressive exhaustive labyrinthine and obsessive *The Anime Encyclopedia* is an astonishing piece of work Neil Gaiman Over one thousand new entries over four thousand updates over one million words This third edition of the landmark reference work has six additional years of information on Japanese animation its practitioners and products plus incisive thematic entries on anime history and culture With credits links cross references and content advisories for parents and libraries Jonathan Clements has been an editor of *Manga Max* and a contributing editor of *Newtype USA* Helen McCarthy was founding editor of *Anime UK* and editor of *Manga Mania* **Space Sirens, Scientists and Princesses** Dean Conrad, 2018-06-09 Women are now central to many science fiction films but that has not always been the case Female characters from their token presence or absence in the silent pictures of the early 20th century to their roles as assistants pulp princesses and sexy robots and eventually as scientists soldiers and academics have often struggled to be seen and heard in a genre traditionally regarded as of men by men and for men Surveying more than 650 films across 120 years the author charts the highs and lows of women's visibility in science fiction's cinematic history through the effects of two world wars social and cultural upheavals and advances in film technology **Encyclopedia of Literary Translation Into English: A-L** O. Classe, 2000 **Cult Film as a Guide to Life** I.Q. Hunter, 2016-09-08 *Cult Film as a Guide to Life* investigates the world and experience of cult films from well loved classics to the worst movies ever made Including comprehensive studies of cult phenomena such as trash films exploitation versions cult adaptations and case studies of movies as different as *Showgirls* *Room 237* and *The Lord of the G Strings* this lively provocative and original book shows why cult films may just be the perfect guide to making sense of the contemporary world Using his expertise in two fields I.Q. Hunter also explores the important overlap between cult film and adaptation studies He argues that adaptation studies could learn a great deal from cult and fan studies about the importance of audiences emotional investment not only in texts but also in the relationships between them and how such bonds of caring are structured over time The book's emergent theme is cult

film as lived experience With reference mostly to American cinema Hunter explores how cultists with their powerful emotional investment in films care for them over time and across numerous intertexts in relationships of memory nostalgia and anticipation
