Nigro Sansonese, 1994 Long ago the ancestors of the Greeks Romans and Hindus were one people living on the Eurasian steppes At the core of their religion was the shamanic trance a natural state but one in which consciousness achieves a profound level of inner awareness Over the course of millennia the Indo Europeans divided and migrated into Europe and the Indian subcontinent The knowledge of shamanic trance retreated from everyday awareness and was carried on in the form of myths and distilled into spiritual practices most notably in the Indian tradition of yoga I Nigro Sansonese compares the myths of Greece as well as those of the Judeo Christian tradition with the yogic practices of India and concludes that myths are esoteric descriptions of what occurs within the human body

especially the human nervous system during trance In this light the myths provide a detailed map of the shamanic state of consciousness that is our natural heritage This book carries on from the works of Carl Jung and Joseph Campbell to show how the portrayal of consciousness embodied in myth can be extended to a reappraisal of the laws of physics before they are descriptions of the world these laws like myths are descriptions of the human nervous system Wild Nights Out Chris Salisbury, 2021-06-03 The book gives adults ideas for activities to get kids outside after the sun goes down from night hikes to trapping moths It s also a fascinating meditation on humans relationship with darkness Outside A fun inventive adventure quide about helping children explore nature after dark Its activities are a great excuse to turn off the television set down smartphones and explore the rich mysterious world just beyond the back door Foreword Reviews The go to guide for exploring nature at night whether on summer holidays weekends away or even back garden adventures Foreword by Chris Packham author naturalist and BBC presenter Learn how to call for owls walk like a fox and expand your sensory perceptions Wild Nights Out is a wonderful new hands on guide for those who wish to take kids of all ages outdoors for fun thrilling nighttime nature adventures Parents grandparents teachers and nature educators alike will discover a wealth of unique activities to explore the natural world from dusk till dawn Alongside games walks and exercises to expand our senses storyteller and outdoor educator Chris Salisbury will bring this unexplored nocturnal dimension to life with lore about badgers bats and minibeasts as well as tales of the constellations and planets to share around the campfire In Wild Nights Out you can expect to find 25 fun and informative games and activities Practical information on how to conduct night walks safely Animal facts and stargazing stories Beautiful black and white illustrations throughout Nature has so much to offer at night so let Wild Nights Out be your guide to the dark It will boost the resilience and self confidence of children and adults and instill a lifelong love of having fun in the outdoors when the sun goes down Scribner's Magazine ..., 1897
