A View Of The Bottom:

A view From The Bottom Marlin,2013-11-29 I am one of 10 children from a poor family We grew up on food from the surplus food program I worked as a structural steel fitter ship fitter and millwright until I figured out that the equipment was more valuable than the people who used it we were replaceable if we got injured or killed I joined the Los Barbados Motorcycle Club and began to move to a new world during the early 1970 s We changed over to become members of the Outlaws Motorcycle Club shortly after that I spent about 8 years as an outlaw Then I went to college starting in 1976 using Federal Job Power money I moved from the biker world to a new world of what was then white collar jobs This is the story of some of my time in each world and my transition between worlds The rules for each are so different they are effectively different worlds existing in the same physical space of this planet It is clear to me why someone who becomes socially successful can t go back and help others from their old world If you have something to lose law enforcement types will use that against you if you stay in contact with old friends from unacceptable worlds I currently have a Masters degree in Computer Science from George Mason University and graduated with a 4.0 GPA *A View from the Bottom* Tan Hoang Nguyen,2014-07-29 *A View from the Bottom* offers a major critical reassessment of male effeminacy and its racialization in visual culture Examining portrayals of Asian and Asian American men in Hollywood cinema European art film gay pornography and experimental documentary Nguyen Tan Hoang explores the cultural meanings that accrue to sexual positions He shows how cultural fantasies around the position of the sexual bottom overdetermine and refract the meanings of race gender sexuality and nationality in American culture in ways that both enable and constrain Asian masculinity Challenging the association of bottoming with passivity and abjection Nguyen suggests ways of thinking about the bottom position that afford agency and pleasure A more capacious conception of bottomhood as a sexual position a social alliance an affective bond and an aesthetic form has the potential to destabilize sexual gender and racial norms suggesting an ethical mode of relation organized not around dominance and mastery but around the risk of vulnerability and shame Thus reconceived bottomhood as a critical category creates new possibilities for arousal receptiveness and recognition and offers a new framework for analyzing sexual representations in cinema as well as understanding their relation to oppositional political projects **Early Modern Humans at the Moravian Gate** Maria Teschler-Nicola,2007-07-28 This beautifully illustrated monograph addresses for the first time the complete assemblage of the Mladec caves finds including the human cranial post cranial teeth and jaw fragments of several individuals as well as faunal remains and archaeological objects Leading scientists present their results obtained with innovative techniques such as DNA analysis 3D morphometry and isotope analysis which are of great importance for further discussions on both human evolution and archaeological issues **Technical Drawing 101 with AutoCAD 2015** Antonio Ramirez,Jana Schmidt ,Douglas Smith,2014-06-11 *Technical Drawing 101* covers topics ranging from the most basic such as making freehand multiview sketches of machine parts to the

advanced creating an AutoCAD dimension style containing the style settings defined by the ASME Y14.5 2009 Dimensioning and Tolerancing standard. But unlike the massive technical drawing reference texts on the market, Technical Drawing 101 aims to present just the right mix of information and projects that can be reasonably covered by faculty and assimilated by students in one semester. Both mechanical and architectural projects are introduced to capture the interest of more students and to offer a broader appeal. The authors have also created extensive video training: 101 videos, nearly 11 hours total, that is included with every copy of the book. In these videos, the authors start off by getting students comfortable with the user interface and demonstrating how to use many of AutoCAD's tools and commands. The videos progress to more advanced topics where the authors walk students through completing several of the projects in the book. The CAD portion of the text incorporates drafting theory whenever possible and covers the basics of drawing setup, units, limits, and layers; the tools of the Draw, Modify, and Dimension toolbars; and the fundamentals of 3D modeling. By focusing on the fundamental building blocks of CAD, Technical Drawing 101 provides a solid foundation for students going on to learn advanced CAD concepts and techniques: paper space, viewports, xrefs, annotative scaling, etc. in intermediate CAD courses. In recognition of the diverse career interests of our students, Technical Drawing 101 includes projects in which students create working drawings for a mechanical assembly as well as for an architectural project. We include architectural drawing because our experience has shown that many, if not most, first semester drafting students are interested in careers in the architectural design field and that a traditional technical drawing text which focuses solely on mechanical drawing projects holds little interest for these students. The multidisciplinary approach of this text and its supporting materials is intended to broaden the appeal of the curriculum and increase student interest, and it is hoped, future enrollments.
