## The First Americans

---

*What were the major patterns of Native American life in North America before Europeans arrived?*

### The Settling of the Americas

- 15,000-60,000 years ago, people came across the Bering Strait
- 11,000 years ago, food supply diminishes as animals (wooly mammoths and bison) become extinct
  - Low food supply = lower population
- 9,000 years ago, agriculture develops making civilizations possible (until then they were nomads following food supply)

### Indian Societies of the Americas

- Southern American civilizations were more developed than the Northern Americans
  - Cities, roads, irrigation systems, extensive trade networks, large structures such as pyramid temples
  - **Tenochtitlan**: the capital city of the **Aztec Empire**
    - 250K population
    - Built on marshy islands on western side of Lake Tetzcoco (present day Mexico City)
  - **Inca Kingdom** centered in modern day Peru
    - 12M population
    - Complex system of roads and bridges that extended 2,000 miles along Andes Mountains
  - **North American Indians** lacked technologies of the Europeans
    - metal tools, gunpowder, scientific knowledge for long distance navigation, literacy
    - Europeans used their lack of technologies or "backwardness" as justification for conquest

### Mound Builders of The Mississippi River Valley

- Native Americans constructed a large community on a series of giant semicircular mounds on a bluff overlooking the Mississippi River (in present day Louisiana called Poverty Point)
  - Commercial and governmental center whose residents established the trade routes throughout the Mississippi and Ohio River valleys
- "Mound Builders": Ohio River valley residents had traded across half the continent
- **Cahokia**: (Present day St. Louis), City center of the Mississippi River valley residents
  - Mounds up to 100 ft. high
  - 1<sup>st</sup> developed civilized community in the North
  - From years 1200-1800 it was the largest settled community (NY and Philadelphia become larger in 1800s)

### Western Indians

- Hopi and Zuni in present day Arizona
  - Region peaked between years 900-1200
  - Built multiple-family dwellings local canyons in well planned towns, built dams and canals to gather and distribute water, conducted trade with groups as far away as central Mexico
    - Largest dwelling was *Pueblo Bonito* in Chaco Canyo, NM: 5 stories high, 600 rooms
  - Drought caused them to move south and east
    - Established villages and perfected desert farming
- In 16<sup>th</sup> century, Spanish named them Pueblo Indians because they lived in Pueblos (small villages)

**Catalogue** Harvard University. Graduate School of Design. Library, 1968      Saturday Review ,1862      The Making of a Savior Bodhisattva Shi Zhiru, 2007-08-14 In modern Chinese Buddhism Dizang is especially popular as the sovereign of the underworld Often represented as a monk wearing a royal crown Dizang helps the deceased faithful navigate the complex underworld bureaucracy avert the punitive terrors of hell and arrive at the happy realm of rebirth The author is concerned with the formative period of this important Buddhist deity before his underworldly aspect eclipses his connections to other religious expressions and at a time when the art mythology practices and texts of his cult were still replete with possibilities She begins by problematizing the reigning model of Dizang one that proposes an evolution of gradual sinicization and increasing vulgarization of a relatively unknown Indian bodhisattva Ksitigarbha into a Chinese deity of the underworld Such a model the author argues obscures the many faceted personality and iconography of Dizang Rejecting it she deploys a broad array of materials art epigraphy ritual texts scripture and narrative literature to recomplexify Dizang and restore as much as possible from the fragmented historical sources what this figure meant to Chinese Buddhists from the sixth to tenth centuries

Rather than privilege any one genre of evidence the author treats both material artifacts and literary works canonical and noncanonical sources Adopting an archaeological approach she excavates motifs from and finds resonances across disparate genres to paint a vibrant detailed picture of the medieval Dizang cult Through her analysis the cult far from being an isolated phenomenon is revealed as integrally woven into the entire fabric of Chinese Buddhism functioning as a kaleidoscopic lens encompassing a multivalent religio cultural assimilation that resists the usual bifurcation of doctrine and practice or elite and popular religion *The Making of a Savior Bodhisattva* presents a fascinating wealth of material on the personality iconography and lore associated with the medieval Dizang It elucidates the complex cultural religious and social forces shaping the florescence of this savior cult in Tang China while simultaneously addressing several broader theoretical issues that have preoccupied the field Zhiru not only questions the use of sinicization as a lens through which to view Chinese Buddhist history she also brings both canonical and noncanonical literature into dialogue with a body of archaeological remains that has been ignored in the study of East Asian Buddhism *Sacred Shock: Framing Visual Experience in Byzantium* Glenn Peers, 2004 *Sacred Shock* attempts to lay bare the inner workings of Byzantine art by looking closely at the marginal or subsidiary areas in works of art Gaither's Dictionary of Scientific Quotations Carl C. Gaither, Alma E.

Cavazos-Gaither, 2008-01-08 Scientists and other keen observers of the natural world sometimes make or write a statement pertaining to scientific activity that is destined to live on beyond the brief period of time for which it was intended This book serves as a collection of these statements from great philosophers and thought influencers of science past and present It allows the reader quickly to find relevant quotations or citations Organized thematically and indexed alphabetically by author this work makes readily available an unprecedented collection of approximately 18 000 quotations related to a broad range of scientific topics **Health Informatics: Practical Guide Seventh Edition** William R.
