A Young Mans Guide To Late Capitalism:

A Young Man's Guide to Late Capitalism Peter Mountford, 2011 In 2005 La Paz Bolivia hedge fund agent Gabriel hatches a dangerous plan to gain insider information on the country's president elect a scheme that could cost him the love of his girlfriend who is also the president's press liaison as well as his headstrong mother A first novel Original 20 000 first printing

A Young Man's Guide to Late Capitalism Peter Mountford, 2021-03-19 A terrific debut novel Mountford's parable of the voracious global economy reminds me of Graham Greene's *The Quiet American* Jess Walter 1 New York Times bestselling author of *The Cold Millions* On his first assignment for a rapacious hedge fund Gabriel embarks to Bolivia at the end of 2005 to ferret out insider information about the plans of the controversial president elect If Gabriel succeeds he will get a bonus that would make him secure for life Standing in his way are his headstrong mother a survivor of Pinochet's Chile and Gabriel's new love interest the president's passionate press liaison Caught in a growing web of lies and questioning his own role in profiting from an impoverished people Gabriel sets in motion a terrifying plan that could cost him the love of all those he holds dear Set against the stunning mountainous backdrop of La Paz and interspersed with Bolivia's sad history of stubborn survival this examines the critical choices a young man makes as his world closes in on him Both of the book's settings desperately poor but proud La Paz the world's highest altitude capital and the world of go go high finance a realm about which Mountford clearly knows his stuff are well rendered The author is especially good at conveying the visceral and intellectual thrills of stock speculation manipulation smart intricate fast paced Kirkus Reviews One of the most compelling and thought provoking novels I've read in years David Shields author of *Other People* Winner of the Washington State Book Award

Contemporary World Narrative Fiction and the Spaces of Neoliberalism Michael K. Walonen, 2016-04-26 This book is a transnational study of how contemporary fiction writers from the United States and Canada to Nigeria to India to Dubai have conceptualized the emergent social spaces of the diverse corners of the neoliberal world system Over the span of the past three to four decades free market economic policies have been sold to or pushed upon every society on the globe in some way shape or form The upshot of this has been a world system structured in terms of a vast shift of power and resources from government to private enterprise dwindling civic life replaced by rising consumerism an emerging oligarchic rentier class large segments of population faced with meager material conditions of existence and few prospects of socio economic mobility and a looming sense of a near future dominated by further economic collapses and mounting social strife This book analyses a wide cultural array of some of the most poignant narrative engagements with neoliberalism in its various localized manifestations throughout the world

Postmodern/Postwar and After Jason Gladstone, Andrew Hoberek, Daniel Worden, 2016-07 Within the past ten years the field of contemporary American literary studies has changed significantly Following the turn of the twenty first century and mounting doubts about the continued explanatory power of the category of postmodernism new organizations have emerged book series have been launched journals have been created

and new methodologies periodizations and thematics have redefined the field Postmodern Postwar and After aims to be a field defining book a sourcebook for the new and emerging critical terrain that explores the postmodern postwar period and what comes after The first section of essays returns to the category of the post modern and argues for the usefulness of key concepts and themes from postmodernism to the study of contemporary literature or reevaluates postmodernism in light of recent developments in the field and historical and economic changes in the late twentieth and early twenty first centuries These essays take the contemporary abandonments of postmodernism as an occasion to assess the current states of postmodernity After that the essays move to address the critical shift away from postmodernism as a description of the present and toward a new sense of postmodernism as just one category among many that scholars can use to describe the recent past The final section looks forward and explores the question of what comes after the postwar postmodern Taken together these essays from leading and emerging scholars on the state of twenty first century literary studies provide a number of frameworks for approaching contemporary literature as influenced by yet distinct from postmodernism The result is an indispensable guide that seeks to represent and understand the major overhauling of postwar American literary studies that is currently underway

Downward Mobility Katherine Binhammer, 2020-04-28 How do the stories we tell about money shape our economies Beginning in the late eighteenth century as constant growth became the economic norm throughout Europe fictional stories involving money were overwhelmingly about loss Novel after novel tells the tale of bankruptcy and financial failure of people losing everything and ending up in debtor s prison of inheritances lost and daughters left orphaned and poor In Downward Mobility Katherine Binhammer argues that these stories of ruin are not simple tales about the losers of capitalism but narratives that help manage speculation of capital s inevitable collapse Bringing together contemporary critical finance studies with eighteenth century literary history Binhammer demonstrates the centrality of the myth of downward mobility to the cultural history of capitalism and to the emergence of the novel in Britain Deftly weaving economic history and formal analysis Binhammer reveals how capitalism requires the novel s complex techniques to render infinite economic growth imaginable She also explains why the novel s signature formal developments owe their narrative dynamics to the contradictions within capital s form Combining new archival research on the history of debt with original readings of sentimental novels including Frances Burney s Cecilia and Camilla Sarah Fielding s David Simple and Oliver Goldsmith s The Vicar of Wakefield Downward Mobility registers the value of literary narrative in interpreting the complex sequences behind financial capitalism especially the belief in infinite growth that has led to current environmental crises An audacious epilogue arms humanists with the argument that in order to save the planet from unsustainable growth we need to read more novels
