authoritative and timely standards of practice are used. Additionally, the references supporting care recommendations are identified according to the latest AACN Evidence Leveling System to ensure that you have a complete understanding of the strength of the evidence base. UNIQUE AACN sponsored content ensures the highest standards of practice. Comprehensive, clear, easy-to-use format allows you to quickly find and review the exact content you need. Rationales provide complete information on every procedure. Identified AP procedures help you judge whether a procedure is in your scope of practice. Patient safety highlighted with new icons for patient identification and time out. Joint Commission Universal Protocols. CDC Standard Precautions for hand washing and applying protective clothing and equipment highlighted with new icons. UNIQUE Clarity of Evidence Leveling helps you quickly grasp the strength of the evidence supporting the care recommendations. Reviewed and Updated References comply with the highest standards of critical care practice. Alphabetical procedures index inside the front cover provides easy access. Reader friendly design changes make it easier to identify and utilize special features.

**AACN Procedure Manual for Pediatric Acute and Critical Care** Judy Trivits Verger, Ruth M. Lebet, American Association of Critical-Care Nurses, 2008. Using detailed step by step guidelines, this comprehensive book covers procedures commonly performed by all nurses in pediatric critical care. Following the successful format of the AACN Procedure Manual for Critical Care 5th edition, this new resource focuses on the unique aspects of caring for infants and children. This easy-to-use guide includes the latest information, a strong evidence base, and a supporting rationale for each step of each procedure. Advanced Practice Skills are included throughout the text and are marked with a special AP icon indicating that these procedures should only be performed by qualified personnel. Evidence based practice and research based data are used to support the recommendations for each procedure. Each procedure follows a consistent step by step format with rationales. Developmental differences are highlighted in special Procedure tables. This valuable everyday resource is sponsored by the American Association of Critical Care Nurses. Each procedure is covered in a consistent structure: Purpose, Prerequisite knowledge, Child and family assessment, Child and family education, Equipment, Procedure with steps, rationale and considerations, Expected and unexpected outcomes, Monitoring and care of the child with activities and interventions, rationale and reportable conditions, Documentation.

**AACN Procedure Manual for High Acuity, Progressive, and Critical Care - E-Book** AACN, 2016-12-02. NEW. Updated content throughout reflects the latest evidence based guidelines and national and international protocols. NEW 17 new procedures reflect major additions to nursing practice in high acuity, progressive, and critical care settings. NEW Engaging new illustrations of procedures, equipment, and techniques are integrated throughout.

[AACN Procedure Manual for Critical Care](#) American Association of Critical-Care Nurses, 2001. Turn here for comprehensive coverage of procedures commonly performed in the critical care environment. Each procedure is detailed step by step with the very latest information, a strong research base, and rationales for each step. The fourth edition features new advanced practice procedures that are noted with special icons. Also includes new procedures for cardiac arrest.

devices continuous venovenous hemofiltration and more Research based data has been added to strengthen recommendations for each procedure
