World Social Report 2025 Department of Economic and Social Affairs, 2025-04-24 The world has seen extraordinary social and economic progress over the past three decades. Unprecedented gains in reducing extreme poverty and improvements in material well being have demonstrated the transformative potential of collective action. Despite these gains societies across the world face deep challenges. Inequalities remain stubbornly high and economic insecurity is on the rise. Many people struggle to earn adequate incomes in precarious jobs and countless families remain one misfortune away from falling into poverty. Frustration with the status quo is fueling distrust and straining the very foundations of global solidarity. The evidence presented in the World Social Report 2025 underscores the need for urgent action. The risks of allowing the vicious cycle of economic insecurity inequality and declining trust to persist are too high. A new policy consensus based on three guiding principles equity economic security for all and solidarity is needed to tackle today's social challenges at their roots and

accelerate progress towards the Sustainable Development Goals The rationale and objectives of such consensus are set out in the Copenhagen Declaration and Programme of Action and in the 2030 Agenda for Sustainable Development Renewed momentum is now needed to translate this collective vision of sustainable development into action *Report of Special Study of Securities Markets of the Securities and Exchange Commission* United States.
