A Reporters Life By Walter Cronkite Knopf December 29 1996:

Journalism at the End of the American Century, 1965-Present James Brian McPherson, 2006-06-30 McPherson captures the best and worst aspects of American journalism since 1965 The press has evolved into a conglomeration of entities that today can be described as pervasive entertaining and justifiably mistrusted In some ways today s press offers the best journalism Americans have ever seen In other ways the modern news media fall short of the ideals held by most of those who care about journalism and far short of the promise they once seemed to offer in terms of helping create an enlightened democracy Neither a paeon to the press nor an exercise in media bashing this book finds much to criticize and to praise about recent American journalism while illustrating that traditional journalistic values have diminished in importance not just for many of those who control the media but also for the media consumers who most need good journalism Chapters are devoted to various themes that include social unrest the influence of entertainment values technological shifts media consolidation and corporatization issues of content versus context new kinds of news media and why the 1970s may have been the high point of American journalism Events and issues given extra attention include the rise of television news and later CNN the Civil Rights Movement and other race related issues the Women s Movement various forms of alternative journalism wars in Vietnam and Iraq investigative journalism the World Trade Center attacks the Clinton Lewinsky scandal the 2000 and 2004 presidential campaigns and elections civic journalism and journalism scandals *Reporting from Washington* Donald A. Joseph Campbell,2016-10-25

Many of American journalism s best known and most cherished stories are exaggerated dubious or apocryphal They are media driven myths and they attribute to the news media and their practitioners far more power and influence than they truly exert In *Getting It Wrong* writer and scholar W Joseph Campbell confronts and dismantles prominent media driven myths describing how they can feed stereotypes distort understanding about the news media and deflect blame from policymakers Campbell debunks the notions that the Washington Post s Watergate reporting brought down Richard M Nixon s corrupt presidency that Walter Cronkite s characterization of the Vietnam War in 1968 shifted public opinion against the conflict and that William Randolph Hearst vowed to furnish the war against Spain in 1898 This expanded second edition includes a new preface and new chapters about the first Kennedy Nixon debate in 1960 the haunting Napalm Girl photograph of the Vietnam War and bogus quotations driven by the Internet and social media **Speak Softly and Carry a Big Stick** J. H. Snider,2005 Broadcasters have always been coddled by politicians and *Speak Softly* explains how and why J H Snider tells the story with the rigor of a scholar the doggedness of an investigative reporter and the zeal of a reformer Paul Taylor Executive Vice President Pew Research Center J H Snider offers an extremely comprehensive and well documented look behind the curtain at how the National Association of Broadcasters drives its national legislative agenda This is must reading for not only political scientists but for all who are interested in media policy and how it gets made in Washington Chellie Pingree President and CEO Common Cause This astute book is a first rate work of original scholarship It also provides an unsettling description of broadcasters policy influence When their own interests are involved broadcasters cannot be trusted to act in the way they demand of all others in society Readers will no doubt question whether J H Snider s recommended solution is a practical one But no reader will question his call for new measures Thomas E Patterson Bradlee Professor of Government and the Press Harvard University Having played a role in the mad cap drama of telecommunications legislation Snider documents I can tell you he has captured the essence of the machinations strange bedfellows and almost single minded righteous self interest that drives the telecommunications debate Like it or not this is how the power game is really played Stephen R Effros Former President 1976 1999 Cable Telecommunications Association *Speak Softly* documents the broadcast industry s striking influence on public policy including the landmark Telecommunications Act of 1996 As Congress gears up to re write the Act J H Snider s analysis is particularly timely Kevin Werbach Professor The Wharton School University of Pennsylvania **Who Believed in You** David McCormick,Dina Powell McCormick,2025-04-01 INSTANT NEW YORK TIMES BESTSELLER Unleash the power of transformative mentorship You can change somebody s life and that can

change the world During the pandemic Dina Powell McCormick and David McCormick watched as many Americans including their six teenage daughters were left feeling devoid of human connection and without the advice and guidance of mentors Recognizing the need in front of them Dina and Dave interviewed successful leaders who stood on the shoulders of their mentor giants people who saw something in them they may not have seen in themselves and helped them find and achieve their purpose in life The book features stories from some of the most influential leaders across the country sharing how their mentors changed their lives including Satya Nadella the CEO of Microsoft Tory Burch the founder of the women s fashion empire Hollywood producer Brian Grazer as well as political leaders such as Arkansas Gov Sarah Huckabee Sanders Maryland Gov Wes Moore and former Secretary of State Condoleezza Rice *Who Believed in You* unpacks the four critical elements of transformative mentorship mutual trust shared values meaningful commitment and the importance of instilling confidence and offers guideposts and powerful illustrations from actual mentorship journeys that both show the way and inspire This book is just the beginning Dina and Dave are starting a movement encouraging leaders to share their stories of who believed in them and what advice they re giving their mentees today Through unleashing the power of transformative mentorship you can change someone s life and that can change the world

Media, NASA, and America's Quest for the Moon Harlen Makemson, 2009 When Apollo 11 landed on the moon in July 1969 it capped not only the most remarkable engineering feat in history but also a decade long battle over how much access the press and public should have to the manned space program Now forty years after an awed world watched Neil Armstrong and Buzz Aldrin bounce across the surface of the moon this book tells the behind the scenes story of how NASA and the U S media were often at odds but ultimately showed extraordinary cooperation in bringing the story of lunar conquest to the world Drawing upon rich historical sources from NASA journalists and television networks this book sheds new light on how media shaped how we saw America s great adventure in space and raises contemporary questions about the role of information in a free society

The Presidents vs. the Press Harold Holzer, 2020-08-25 An award winning presidential historian offers an authoritative account of American presidents attacks on our freedom of the press The FAKE NEWS media Donald Trump has tweeted is not my enemy it is the enemy of the American People Has our free press ever faced as great a threat Perhaps not but the tension between presidents and journalists is as old as the republic itself Every president has been convinced of his own honesty and transparency every reporter who has covered the White House beat has

believed with equal fervency that his or her journalistic rigor protects the country from danger Our first president George Washington was also the first to grouse about his treatment in the newspapers although he kept his complaints private Subsequent chiefs like John Adams Abraham Lincoln Woodrow Wilson and Barack Obama were not so reticent going so far as to wield executive power to overturn press freedoms and even to prosecute journalists Theodore Roosevelt was the first president to actively manage the stable of reporters who followed him doling out information steering coverage and squashing stories that interfered with his agenda It was a strategy that galvanized TR's public support but the lesson was lost on Woodrow Wilson who never accepted reporters into his inner circle Franklin Roosevelt transformed media relations forever holding more than a thousand presidential press conferences and harnessing the new power of radio at times bypassing the press altogether John F Kennedy excelled on television and charmed reporters to hide his personal life while Richard Nixon was the first to cast the press as a public enemy From the days of newsprint and pamphlets to the rise of Facebook and Twitter each president has harnessed the media whether intentional or not to imprint his own character on the office In this remarkable new history acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it From Washington to Trump he chronicles the disputes and distrust between these core institutions that define the United States of America revealing that the essence of their confrontation is built into the fabric of the nation
