Skeat Walter William Skeat, 1887 **The Sociological Turn in Translation and Interpreting Studies** Claudia V. Angelelli, 2014-09-15 Increasing attention has been paid to the agency of translators and interpreters as well as to the social factors that permeate acts of translation and interpreting In addition agency and social factors are discussed in more interdisciplinary terms Currently the focus is not only on translators or interpreters i.e. the exploration of their inter/intra social agency and identity construction or on their activities and the consequences thereof but also on other phenomena such as the displacement of texts and people and issues of access and linguisticism The displacement of texts whether written or oral across time and space as well as the geographic displacement of people has encouraged researchers in Translation and Interpreting Studies to consider issues related to translation and interpreting through the lens of the Sociology of Language Sociolinguistics and Historiography Researchers have employed a myriad of theoretical and methodological lenses borrowed from other disciplines in the Humanities and Social Sciences Therefore the interdisciplinarity of Translation and Interpreting Studies is more evident now than ever before This volume originally published as a special issue of Translation and Interpreting Studies issue 7 2 2012 is a perfect example of such interdisciplinarity reflecting the shift that has occurred in Translation and Interpreting Studies around the world over the last 30 years **Catalog of Copyright Entries** Library of Congress.
