*World Religions for Healthcare Professionals* Mark Carr, Siroj Sorajjakool, Ernest Bursey, 2023-08-08 This third edition of a popular text introduces healthcare students and professionals to a wide range of health beliefs and practices in world religions. Chapters on various religions are written to offer an insider's view on the religion's historical development, key beliefs and practices including ideas of health, sickness, death and dying. The chapters include case studies, advice on what to do and what to avoid when caring for patients. Introductory chapters invite the reader to consider the broad context of patient care in pluralistic society and explore one's personal orientation to others from different religions. How we care for patients from different backgrounds and cultures insists on professional boundaries that the reader may have not yet examined. A new chapter explores the relationship between religion and public health in light of the COVID-19 pandemic, asking the reader to consider what morally appropriate balance is required if and when personal faith conflict with public health needs. Undoubtedly the sensitivity with which clinicians communicate with patients and make decisions regarding appropriate medical intervention can be greatly increased by an understanding of religious and cultural diversity. This is a core textbook for students studying healthcare, religion and culture and an invaluable reference for healthcare professionals.

**The Barter** Siobhan Adcock, 2015-08-04 Eerie and atmospheric, this psychological thriller will twist its way into readers' psyches. Booklist In today's lean-in era, debut novelist Siobhan Adcock casts the issue of whether women can ever have it all into a superbly written novel that will have readers everywhere talking. Bridget has given up her career to raise her daughter, but now a terrifying presence has entered their Texas home, and only Bridget can feel it. In 1902, motherhood spurs Rebecca to turn her back on her husband despite her own misgivings. As Adcock crosscuts these two women's stories with mounting tension, each arrives at a terrible ordeal of her own making.

World Religions for Healthcare Professionals Mark F Carr, Siroj Sorajjakool, Ernest Bursey, Siroj SSorajjakool, Julius J Nam, 2017-02-10 Religious beliefs and customs can significantly shape patients and professionals' attitudes toward and expectations of healthcare as well as their wishes and personal boundaries regarding such daily matters as dress, diet, prayer, and touch. Undoubtedly the sensitivity with which clinicians communicate with patients and make decisions regarding appropriate medical intervention can be greatly increased by an understanding of religious as well as other forms of cultural diversity. This second edition of a popular and established text offers healthcare students and professionals a clear and concise overview of health beliefs and practices in world religions including Hinduism, Buddhism, Jainism, Confucianism, Taoism, Sikhism, Islam, Judaism, and Christianity. Adopting a consistent structure, each chapter considers the demographic profile of the community, the religion's historical development, and key beliefs and practices, including views regarding health and sickness, death and dying. Each chapter also ends with a useful checklist of advice on what to do and what to avoid, along with recommendations for further reading, both online and in print form. The book's clear and consistent

style ensures that readers with little background knowledge can find the information they need and assimilate it easily A brand new chapter on applications and a set of new case studies illustrating issues in clinical practice enhance this wide ranging book s value to students and practitioners alike
