Transforming Austen Hartke, 2018-04-07 In 2014 Time magazine announced that America had reached the transgender tipping point suggesting that transgender issues would become the next civil rights frontier Years later many people even many LGBTQ allies still lack understanding of gender identity and the transgender experience Into this void Austen Hartke offers a biblically based educational and affirming resource to shed light and wisdom on this modern gender landscape

Transforming The Bible and the Lives of Transgender Christians provides access into an underrepresented and misunderstood community and will change the way readers think about transgender people faith and the future of Christianity By introducing transgender issues and language and providing stories of both biblical characters and real life narratives from transgender Christians living today Hartke helps readers visualize a more inclusive Christianity equipping them with the confidence and tools to change both the church and the world **Alphabet of Faith** Sara Jewell,2021-11-01 Alphabet of Faith explores what it means to live a life of faith and spirit in the 21st century in the context of Jesus commandment to love one another Weaving together faith and culture this breathtaking book explores what it means to live a life of faith and spirit in the 21st century It brings together 26 words such as energy justice liminal space and X marks the spot that reflect the challenges and joys of living in our beautiful but broken and often brutal world It is unwaveringly contemporary progressive and thought provoking The pieces are written for those who say they are spiritual but not religious for people who are or may be familiar with church but perhaps don t attend anymore for those who know Jesus and his teachings and are familiar with the Bible even if they haven t opened it in a while Ultimately these 26 words are for questioners and doubters who believe in kindness mercy and justice as well as in science and who seek a spiritual path that is inclusive and welcoming of conversation and transformation **Faith, Race and Inequality amongst Young Adults in South Africa** Nadine Bowers Du Toit,2022-07-04 For many young South African adults often called born frees who were born just before or just after the demise of political apartheid the ongoing realities of poverty and inequality bring to light the question of whether they truly are free in contemporary South Africa Their lived experiences of poverty and inequality seem to be in conflict with theologically laden concepts that remain prominent in social and political life such as reconciliation forgiveness justice and restitution This leads to a bi directional process of contesting and being contested by such notions and discourses Furthermore in light of the double legacy of both the church and youth as resisting injustice this publication seeks to explore the many perspectives from which the Christian faith race and inequality amongst youth can be brought to light **Gender and Secularism: Proof versus Faith** Stephen Measure,2021-02-19 A trio of essays arguing that secularism must always give precedence to proof over faith and that gender identity therefore should not be taken seriously as a secular belief If Gender Identity Isn t a Religious Belief Then It s Really Really Stupid Real Gender vs Woke Gender A Non Religious Theocracy *Faith under Fire: Vanities, Fantasies, Mutiny and Psychedelic Entrapments* Riaan Engelbrech,2023-01-20 Written in these pages is not doctrine or dogma It is neither intended as an in depth history nor a philosophical lesson This is but a burning cry for the true Bride to awaken from her slumber to reflect on times gone past and to consider her foundations We need to wake up for today s new brand of Christianity is a different gospel and is targeting thousands of the younger generation with a so called hip cool experiential spirituality much of which is embracing a form of mysticism and ecumenical philosophy of uniting people from all faiths to work together and bring about a new world of peace

and harmony **Living in Love and Faith** The Church of England, 2020-11-09 Issues of gender and sexuality are intrinsic to people's experience their sense of identity their lives and the loving relationships that shape and sustain them The life and mission of the Church of England and of the worldwide Anglican Communion are affected by the deep and sometimes painful disagreements about these matters divisions brought into sharper focus because of society's changing perspectives and practices especially in relation to LGBTBI people Living in Love and Faith sets out to inspire people to think more deeply both about what it means to be human and to live in love and faith with one another It tackles the tough questions and the divisions among Christians about what it means to be holy in a society in which understandings and practices of gender sexuality and marriage continue to change Commissioned and led by the Bishops of the Church of England the Living in Love and Faith project has involved many people across the Church and beyond bringing together a great diversity and depth of expertise conviction and experience to explore these matters by studying what the Bible theology history and the social and biological sciences have to say After a Foreword from the Archbishops of Canterbury and York the book opens with an invitation from the Bishops of the Church of England to embark on a learning journey in five parts Part One sets current questions about human identity sexuality relationships and marriage in the context of God's gift of life Part Two takes a careful and dispassionate look at what is happening in the world with regard to identity sexuality relationships and marriage Part Three explores current Christian thinking and discussions about human identity sexuality and marriage In the light of the good news of Jesus Christ how do Christians understand and respond to the trends observed in Part Two Part Four considers what it means for us as individuals and as a church to be Christ like when it comes to matters of identity sexuality relationships and marriage Part Five invites the reader into a conversation between some of the people who have been involved in writing this book who having engaged with and written Parts One to Four nevertheless come to different conclusions Amid the biblical theological historical and scientific exploration each part includes Encounters with real contemporary disciples of Christ whose stories raise questions which ask us to discern where God is active in human lives The book ends with an appeal from the Bishops to join them in a period of discernment and decision making following the publication of Living in Love and Faith The Living in Love and Faith book is accompanied by a range of free digital resources including films podcasts and an online library together with Living in Love and Faith The Course a 5 session course which is designed to help local groups engage with the resources also published by Church House Publishing *Of Faith and Freedom* Joseph Gilbert, 2022-11-03 It isn't very politically correct to say America is a Christian nation However the Founding Fathers were Christians and their core convictions were the bedrock upon which this country was built These principles include the belief that as divine creations of God we are all equal before the law each citizen has intrinsic worth and value above any government and our rights are endowed onto us by our Creator These beliefs are not politically correct Political correctness is an extension of cultural Marxism that seeks to remove every aspect of God and religion from American public

life including how we are governed If they are successful and they have been very successful so far we lose what made America great in the first place Our concept of the rule of law disappears and the elite play by different rules than the rest of us The belief that our rights come from God is removed Our rights then can be twisted manipulated or stripped from us for political expediency Worst of all the divine nature of the creation of mankind with an immortal soul is gone They can then do whatever they want With no God there is no objective right wrong good or evil The ends justify the means and the perpetrators can execute their evils with a clean conscience because there is no sin Cultural Marxism has been a powerful force in American culture for almost a century shaping institutions such as school family and government In the 1920s and during World War II socialist ideas that originated at the Frankfurt School also known as the Institute for Social Research began to seep into the social fabric of the US As the cultural Marxist movement gained power the reach of the federal government expanded and the basic value of each individual citizen was diminished The role of the Judeo Christian belief system which emphasizes absolute truth and the dignity of the individual has been ignored with disastrous consequences Using the Ten Commandments and the Bill of Rights author Joe Gilbert lays out the relationship God intended family government and individuals to have with each other and guides readers to a renewed hope and vision of American ideals shaped by objective biblical truth Fans of Glenn Beck and Mark Levin will find *Of Faith and Freedom* a useful companion in the fight against the malevolent social forces that have so negatively influenced America
