Alcoholics Anonymous Comes of Age Bill W.,1957 *The Book That Started It All* Anonymous,2013-09-03 An extraordinary reproduction of the original working manuscript of the Big Book of Alcoholics Anonymous with an introduction and notes by a panel of celebrated AA historians The Book That Started It All offers fresh insights into the history and foundation of the revolutionary Alcoholics Anonymous program Reproduced in this elegant gift edition the original working manuscript is the missing link in our understanding of what transpired between AA founder Bill Wilson s first draft of Alcoholics Anonymous and the first published edition In January 1939 Wilson and other AA founders distributed 400 copies of his typed manuscript to everyone they could think of who might be concerned with the problem of alcoholism to test out the program As the loan copies were returned suggestions for revision were considered and written out in colored pencil on one master copy that was eventually submitted for publication The many changes made in black green and red on page after page are shown here in their original form revealing the opinions debates and discussions that went into making the Big Book *Alcoholics Anonymous Comes of Age* Alcoholics Anonymous World Services,1957 The Akron Genesis of Alcoholics Anonymous Dick B.,1998 Dick B is a writer historian Bible student retired attorney and active recovered member of A A He has sponsored more than 100 men in their recovery Dick has devoted 18 years of his life to researching the spiritual roots of A A and has now published 33 titles on the subject with more to come His special attention to the early Akron program which had a documented 75% success rate among seemingly hopeless medically incurable real alcoholics who went to any lengths to establish their relationship and fellowship with the Creator has made this a landmark study resource of students of Old School A A students who want to utilize the program and achieve the successes of the 1930 s

Darrah,2001-08-31 Sister Ignatia Second Edition *This Strange Illness* Jared Lobdell,2004-01-01 This brilliant work both personal and professional in character is a study of alcoholism of a movement aimed at its cure and of an individual participant in this development The author develops an interlinked theory and scientific research program that describe an illness of the mind body and spirit He does so without allowing the assumptions underlying the way we look at one area of illness say the mind to contradict the assumptions underlying the way we look at the human body or for that matter the human spirit That Lobdell carries this project to a successful conclusion makes this a compelling work for everyone in the field of alcohol studies and social pathology Lobdell who has written on a broad range of subjects here argues the originality and importance of recognition of

alcoholism as a tripartite illness and of congruent treatment for the three parts He thus accepts a medical view of this vast social problem but also recognizes dimensions within it that go beyond the ordinary limits of medical practice as well as the complexity of its treatment His book is at once an intellectual history of Bill W's vision a short history of alcohol addiction and the culture of that addiction a treatise on the psychological biochemical and spiritual aspects of the illness and its treatment and a scientific research program for the future Norman K Denzin of the University of Illinois has hailed the book as a wonderful story brought to a sophisticated readership and will widely appeal to the recovering population Matthew J Raphael intimate with the subjects as well as the concerns of this book says This Strange Illness is an astounding book Jared Lobdell a brilliant polymath traverses a spectrum of disciplines from biogenetics and chaos theory to psychology sociology and theology in search of a sufficiently complex and comprehensive understanding alcoholism This is the most intellectually rigorous study I have ever seen in the field Jared C Lobdell is author or editor of a dozen books in history and criticism and a number of articles in fields ranging from alcohol studies to systems analysis He has served as a fellow at the Center for Alcoholism and Addiction Studies Brown University His current positions are at Millersville University of Pennsylvania and adjunct professor at Elizabethtown College in Pennsylvania

From Sin to Disease Jonathan K. Okinaga, 2022-09-23 Since Benjamin Rush first introduced the disease of wills as the cause of alcoholism a steady and slow infiltration of the disease model has infected how the church treats those who struggle with addictions The first organization that truly sought to remove the soul care of addicts from the church was Alcoholics Anonymous AA through their bestselling The Big Book of AA and the introduction of the 12 Steps AA's influence on how the church confronts addiction still reverberates today with many of the ministries that address addiction firmly rooted in what can be found in AA literature Addictions were once viewed as an issue caused by sin and best addressed through faith and prayer Currently addiction is

seen through the lens of disease The ramifications are consequential as more church members are struggling with addictions than ever before Tracing the progression of addiction from sin to disease will reveal that the SBC and its churches have been negligent in understanding the underlying foundations of AA and the influence that the medicalization of substance abuse has had on how churches approach what should be classified as a sin issue *Revelatory Events* Ann Taves, 2016-11-08 A leading scholar sheds critical light on the seemingly revelatory events behind new religions and spiritual movements Unseen presences Apparitions Hearing voices Although some people would find such experiences to be distressing and seek clinical help others perceive them as transformative Occasionally these unusual phenomena give rise to new spiritual paths or religious movements Revelatory Events provides fresh insights into what is perhaps the bedrock of all religious belief the claim that otherworldly powers are active in human affairs Ann Taves looks at Mormonism Alcoholics Anonymous and A Course in Miracles three cases in which insiders claimed that a spiritual presence guided the emergence of a new spiritual path In the 1820s Joseph Smith Jr reportedly translated the Book of Mormon from ancient gold plates unearthed with the help of an angel Bill Wilson cofounded AA after having an ecstatic experience while hospitalized for alcoholism in 1934 Helen Schucman scribed the words of an inner voice that she attributed to Jesus which formed the basis of her 1976 best selling self study course In each case Taves argues the sense of a guiding presence emerged through a complex creative interaction between a founding figure with unusual mental abilities and an initial set of collaborators who were drawn into the process by diverse motives of their own A major work of scholarship this compelling and accessible book traces the very human processes behind such events **The Oxford Group & Alcoholics Anonymous** Dick B., 1998 A A s life changing program derived almost exclusively from the precepts of A First Century Christian Fellowship also known as the Oxford Group of which A A was an integral part in its early years This book is the only study devoted exclusively specifically to the Oxford Group origins ideas principles practices specific impact on A A its Big Book its Twelve Steps
