

MOBILE WASH SERIES

These quality mobile wash systems prove to be at the top of their class.

There are three trailer models and two slide in frame designs to chose from in this series of mobile wash systems. Each trailer is constructed of heavy wall steel tube frame utilizing sealed beam lights with the wiring inside the tube frame to reduce exposure to the elements that cause premature light failures.

On the Entrepreneur II & the Entrepreneur III the deck is completely covered to also reduce road dirt and splash from below the trailer keeping the pressure washer, water tank, and hose reels clean longer.

The Entrepreneur IV incorporates an undercarriage ramp for easy loading and unloading of the pressure washer, making this a very universal system. If a trailer isn't required, you don't have to use it - simply load the pressure washer and your ready to go.

The Entrepreneur II, III & IV come equipped with a heavy duty bolt on fender design for easy replacement due to bumps or bends. The POD system provides a convenient system that like the Entrepreneur IV, allows for use with or without your water supply & POD slide in frame assembly.
