

SUZUKI INTRUDER 800

IF THERE WAS AN AWARD FOR the sticker-looking, most integrated V-Twin-powered cruiser, the Suzuki Intruder would win hands down.

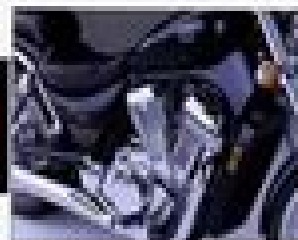

The Intruder 800 has more slick styling cues, such as its sculpted fuel tank, rock guard and exhaust shrouds to detail. It is also the narrowest machine in the class, a point further emphasized by its pull-back handlebar and compact seat-to-hip relationship.

Thing of beauty, packing a punch

Avoids from its styling, the Intruder's best asset is its liquid-cooled, 800cc, 115-hp engine, a delightful engine with a broad, torquey personality. What gives the Intruder its air of style is its 800cc engine, a delightful engine with a broad, torquey personality. What gives the Intruder its air of style is its 800cc engine, a delightful engine with a broad, torquey personality.

Like the Magna 750, the Intruder manages with a single front disc brake,

in this case assisted by a single piston, single-disk caliper. A conventional drum is used at the rear. Torquey yet, more snappy power is needed. What's more, the bike's curves, 21-inch front wheel and 16.5-inch, alone look, quickly chosen and have experience make for a fast horizontal combination. After dragging the Intruder

but considerable effort is required to keep it on line and its understanding of

down a particularly light section of road, one never knows that he could feel the engine flaring at the front wheel. The bike can be ridden fast,

the pavement. When you're in the thick of the road, which makes even that

So, of styling and engine performance are high on your list, the Intruder 800 is an excellent choice. Just avoid bumps, long rides and right roads.

YAMAHA VIRAGO 750

Yamaha's Virago 750 comes like a cruiser should. It has the spacious seating tank, a handsome headlight, a stripped seat, dual exhaust pipes and arms of deep, rich chrome.

Introduced in 1981, the Virago 750 was the first Japanese cruiser to take on Milwaukee. Obviously, the Virago didn't put Harley-Davidson out of business, but the consensus of its look has had much to do with its longevity.

There's nothing really high-tech about the Virago's powerplant, a 750cc, 100-hp, 115-hp V-Twin. The air-cooled engine performs reasonably well compared to the more advanced powerplants from Kawasaki and Suzuki. In side-by-side, engine roll-overs, for example, the Virago would usually put the Yamaha before taking its speed through the gears.

The Virago's handling is also noteworthy. While its styling language tends down roads, the Virago is relatively light, and possesses minimal

Even though it is air-cooled and less technically advanced than its competitors, the Virago 750's powerplant still works well. The same basic configuration has been used for over a decade.

ing geometry, giving it a confidence that the cruiser powers. The suspension is equally impressive, especially the spring-adjustable shocks, which do a good job of working up bumps and dips.

plus in a broad range of riding scenarios. In front brakes, though a dual design, also work well. The suspension, double-disk calipers and 16.5-inch wheels offer excellent feel and good stopping power.

On the dual side, the Virago's seat could use some help. The saddle looks thick and plush, but less than an hour on the freeway will have your backside feeling otherwise. Furthermore, the Virago's five-speed transmission would benefit from smoother operation.

But at \$5999, \$1200 less than the Magna, the Virago 750 is priced right, which makes the performance good point, upon styling and considerably performance even more appealing.
