

Respiration, Circulation, and Excretion

What You'll Learn

- You will identify the functions of the respiratory system and explain the mechanics of breathing.
- You will describe the structure and function of the different types of blood cells and trace the pathway of blood circulation through the body.
- You will describe the structure and function of the urinary system.

Why It's Important

With a knowledge of how your circulatory, respiratory, and urinary systems function, you will understand how your cells receive, deliver, and remove materials to maintain your body's homeostasis.

Understanding the Photo

Coordination of the respiratory and circulatory systems allows blood to deliver much needed oxygen and nutrients to the hard-working cells of this climber.
