PIGS

By Ruby Jane Ortiz

What are pigs?

Pigs, also called hogs or swine, are farm animals. They belong to the group of animals called mammals. Mammals are covered with hair or fur. They feed on their mother's milk when they are young.

What do they look like?

Pigs have barrel-shaped bodies. Their body can be white, pink, or black. Some pigs have patches or spots. Look at the photo of the baby pig below. What is its color? Does it have spots?

Where do they live?

Pigs live on farms. They live in family groups called herds. They are often kept in large pig pens. In the wild, they live in woodlands.

How long do they live?

Lifespan is the length of time an animal is expected to live. Pigs that are well cared for have a lifespan of 15 to 20 years. Pigs in the wild live only 4 to 8 years.

Understanding the Worlds of Young Children Laurie Katz, Melissa Wilson, 2021-03-01 Children begin their literacy journeys from the moment of their birth as they begin to read the world around them They embark on their journeys as they observe and react to the gestures and voices of their family members and hear and use the language in which they are immersed to communicate with others Through their interactions with the sign systems surrounding them they become socialized into the cultural practices of their communities and construct meaning in their lives Children's entrance into formal education where they begin to read the word further connect them with literacies of other communities both nationally and globally Thus the early years become a critical time to build and support current and future learning where children develop into creative problem solvers thoughtful communicators and productive leaders and citizens of the next generation This volume extends current knowledge of children's learning by exploring the importance of children's earliest years within the context of their families and communities and connecting those years with their formal education Development is viewed through a child's perspective a concept by Vygotsky 1933 1934 1994 that expresses the unity of the individual's biological and cultural development According to Vygotsky development does not isolate the individual from her/his social context Children are social beings from

birth who acquire and make meanings of their world through their interactions with their families friends childcare providers religious groups and other community members These interactions encompass the way children use language within children s ecosocial physical and social worlds where development occurs How these ecosocial worlds support each other or collide will impact children s literacy development This unique contribution provides the reader with opportunities to a Recognize the importance of literacy practices as cultural and social within the context of the multiple worlds of young children b promote a continuity of children s ecosocial worlds into their formal education through concepts of perezhivanie and resource based pedagogies and c envision an alternative framework for recognizing children s ecosocial worlds outside of the classroom and integrating aspects of those worlds to involve families in their child s formal education **Nonfiction**
