

MARVELOUS MATH

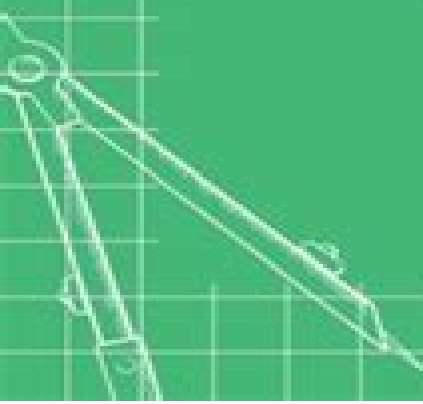

by Rebecca Kai Dotlich

How fast does a New York taxi go?
What size is grandpa's attic?
How old is the oldest dinosaur?
The answer's in Mathematics!

How many seconds in an hour?
How many in a day?
What size are the planets in the sky?
How far to the Milky Way?

How fast does lightning travel?
How slow do feathers fall?
How many miles to Istanbul?
Mathematics knows it all!

experience of all children Each chapter contains ideas for pedagogy and practice underpinned by research and classroom experience ensuring that practitioners will come away feeling much more confident to teach this genre and better enjoy poetry themselves Throughout there are discussions around specific pedagogies and practices relating to the use of poetry across the curriculum as well as resources including a wide range of poems from diverse countries and cultures and poems in different languages and activities which can immediately be used in the classroom Ideas are provided in terms of how poems can be employed in different subject areas to introduce or reinforce concepts engage children in more challenging concepts ensure that lessons are fun and engaging and develop children's awareness of other people and places beyond their immediate experience This book is an extremely powerful combination of informed discussion drawing on ideas from different theoretical perspectives including recent findings from neuroscience and practical suggestions for every classroom Armed with this text practitioners will not only have a very strong idea of how to use poetry to enhance their curriculum but also why this is such a compelling genre

The Complete Poetry of Percy Bysshe Shelley Percy Bysshe Shelley, 2005-01-21
Winners of an Honorable Mention from the Modern Language Association's Prize for a Distinguished Scholarly Edition
Writing to his publisher in 1813 Shelley expressed the hope that two of his major works should form one volume nearly two centuries later the second volume of the Johns Hopkins edition of *The Complete Poetry* fulfills that wish for the first time This volume collects two important pieces *Queen Mab* and *The Esdaile Notebook* Privately issued in 1813 *Queen Mab* was perhaps Shelley's most intellectually ambitious work articulating his views of science politics history religion society and individual human relations Subtitled *A Philosophical Poem With Notes* it became his most influential and pirated poem during much of the nineteenth century a favorite among reformers and radicals *The Esdaile Notebook* a cycle of fifty eight early poems exhibits an astonishing range of verse forms Unpublished until 1964 this sequence is vital in understanding how the poet mastered his craft As in the acclaimed first volume these works have been critically edited by Donald H Reiman and Neil Fraistat The poems are presented as Shelley intended with textual variants included in footnotes Following the poems are extensive discussions of the circumstances of their composition and the influences they reflect their publication or circulation by other means their reception at the time of publication and in the decades since their republication both authorized and unauthorized and their place in Shelley's intellectual and aesthetic development
