

James II of England

When James II ascended the throne in 1685, there was a growing tense relation between the Catholics and Protestants in England. Being a Catholic himself, King James allowed freedom of religion, especially for the Catholics, and even favored them to hold an office, like military positions.

The overt Roman Catholicism expressed by the king resulted in a further divide between him and the majority of the population. Furthermore, James' close diplomatic ties with France had caused an intense conflict between the monarchy and the British Parliament.

James depicted as head of the army, 1685

In March 1687, the king issued the controversial **Royal Declaration of Indulgence**, which suspended all laws concerning the punishment of Protestants who rejected the Church of England.

In 1687 James II dissolved the Parliament and attempted to establish a new one which would not oppose him, in accordance with the **Divine Right of Kings**, a doctrine of absolutism, that he insisted on during his reign.

Mary II

James and his first wife, Anne Hyde, by Sir Peter Lely, 1600s

At that time, James' Protestant daughter, Mary II, was the only rightful person in the royal line of succession. However, this situation changed when the king had a son in 1688, whom he vowed to raise as a Catholic. For such reason, the Protestant population of England feared that this would result in a Catholic dynasty in the country, which eventually caused the revolution.
