Transforming Healthcare with the Internet of Things A. Ugon, B. Séroussi, C. Lovis, 2016-04-12 The current trend in health and social care systems is a shift from care provision to citizen driven health Only a few years ago the high tech devices used in healthcare were limited to health cards and personal portable devices These have since evolved dramatically to include wearables sensors and devices for measuring health values The application of such technologies has for the most part been welcomed by both patients and professionals It is the fact that these devices can be connected to and communicate with other connected devices and systems which has been the game changer in healthcare technology not least because it has empowered and will

empower patients to take more control of their own healthcare management This book presents the proceedings of the Special Topic Conference STC of the European Federation for Medical Informatics EFMI held in Paris France in April 2016 The special topic this year is Transforming Healthcare with the Internet of Things The papers are divided into four sections transforming healthcare with the Internet of things societal dimensions of the Internet of things ontology and decision support and clinical information systems and data reuse with a further section for poster presentations The book will be of interest to all those involved in the provision and delivery of technology based healthcare *Scientific Teaching* Jo Handelsman, Sarah Miller, Christine Pfund, 2007 Seasoned classroom veterans pre tenured faculty and neophyte teaching assistants alike will find this book invaluable HHMI Professor Jo Handelsman and her colleagues at the Wisconsin Program for Scientific Teaching WPST have distilled key findings from education learning and cognitive psychology and translated them into six chapters of digestible research points and practical classroom examples The recommendations have been tried and tested in the National Academies Summer Institute on Undergraduate Education in Biology and through the WPST Scientific Teaching is not a prescription for better teaching Rather it encourages the reader to approach teaching in a way that captures the spirit and rigor of scientific research and to contribute to transforming how students learn science
