*A Handbook to the Reception of Greek Drama* offers a series of original essays that represent a comprehensive overview of the global reception of ancient Greek tragedies and comedies from antiquity to the present day Represents the first volume to offer a complete overview of the reception of ancient drama from antiquity to the present Covers the translation transmission performance production and adaptation of Greek tragedy from the time the plays were first created in ancient Athens through the 21st century Features overviews of the history of the reception of Greek drama in most countries of the world Includes chapters covering the reception of Greek drama in modern opera and film      *Laughing with Medusa* Vanda Zajko, Miriam Leonard, 2006-01-12 *Laughing with Medusa* explores a series of interlinking questions including Does history's self positioning as the successor of myth result in the exclusion of alternative narratives of the past How does feminism exclude itself from certain historical discourses Why has psychoanalysis placed myth at the centre of its explorations of the modern subject Why are the Muses feminine Do the categories of myth and politics intersect or are they mutually exclusive Does feminism's recourse to myth offer a script of resistance or commit it to an ineffective utopianism Covering a wide range of subject areas including poetry philosophy science history and psychoanalysis as well as classics this book engages with these questions from a truly interdisciplinary perspective It includes a specially commissioned work of fiction *Iphigeneia's Wedding* by the poet Elizabeth Cook      *An Introduction to and a Translation of Jean Anouilh's Le Voyageur Sans Bagage* Svea Matilda Adolphson, 1959      **Greek Tragedy** Nancy Sorkin Rabinowitz, 2008-02-26 *Greek Tragedy* sets ancient tragedy into its original theatrical political and ritual context and applies modern critical approaches to understanding why tragedy continues to interest modern audiences An engaging introduction to Greek tragedy its history and its reception in the contemporary world with suggested readings for further study Examines tragedy's relationship to democracy religion and myth Explores contemporary approaches to scholarship including structuralist psychoanalytic and feminist theory Provides a thorough examination of contemporary performance practices Includes detailed readings of selected plays      *Staging and Performing Translation* R. Baines, C. Marinetti, M. Perteghella, 2016-02-02 This exploration of the territory between theory and practice in contemporary theatre features essays by academics from theatre and translation studies and delineates a new space for the discussion of translation in the theatre that is international critical and scholarly while rooted in experience and understanding of theatre practices      **The Tragic Imagination** Rowan Williams, 2016-09-19 *The Literary Agenda* is a series of short polemical monographs about the importance of literature and of reading in the wider world and about the state of literary education inside schools and universities The category of the literary has always been contentious What is clear however is how increasingly it is dismissed or is unrecognised as a way of thinking or an arena for thought It is sceptically challenged from within for example by the sometimes rival claims of cultural history contextualized explanation or media studies It is shaken from without by even greater pressures by economic exigency and the severe social attitudes that can

follow from it by technological change that may leave the traditional forms of serious human communication looking merely antiquated For just these reasons this is the right time for renewal to start reinvigorated work into the meaning and value of literary reading This short but thought provoking volume asks the question What is it that tragedy makes us know The focus is on tragedy as a mode of representing the experience of radical suffering pain or loss a mode of narrative through which we come to know certain things about ourselves and our world about its fragility and ours Through a mixture of historical discussion and close reading of a number of dramatic texts from Sophocles to Sarah Kane the book addresses a wide range of debates how tragedy is defined whether there is such a thing as absolute tragedy various modern attempts to rework the classical heritage and the relation of comedy to tragedy There is also a fresh discussion of whether religious particularly Christian discourse is inimical to the tragic and of the necessary tension between tragic narrative and certain kinds of political as well as religious rhetoric Rowan Williams argues that tragic drama both articulates failure and frailty and in affirming the possibility of narrating the story of traumatic loss refuses to settle for passivity resignation or despair In this sense it still shows the trace of its ritual and religious roots And in challenging two dimensional models of society power humanity and human knowing it remains an intrinsic part of any fully humanist culture
