with mastering the Insider's Language of the subject. People who score high on their exams have a strong working vocabulary in the subject tested. They know how to decode the course vocabulary and use this as a model for test success. People with a strong Insider's Language consistently perform better on their exams, learn faster and retain more information, feel more confident in their courses, perform better in upper level courses, and gain more satisfaction in learning. The Advanced Placement Biology Vocabulary Workbook is different from traditional review books because it focuses on the exam's Insider's Language. Learn the Secret to Success After nearly 20 years of teaching, Lewis Morris discovered a startling fact: Most students didn't struggle with the subject; they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject, there was a list of essential words that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the Insider's Words. When he applied these Insider's Words, the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this Insider's Language to students around the world.
