After the Crisis: Remembrance, Re-anchoring and Recovery in Ancient Greece and Rome Jacqueline Klooster, Inger N.I. Kuin, 2020-02-06 Crises resulting from war or other upheavals turn the lives of individuals upside down and they can leave marks on a community for many years after the event This volume aims to explore how such crises were remembered in the ancient world and how communities reconstituted themselves after a crisis Can crises serve as catalysts for innovation or change and how does this work What do crises reveal about the normality against which they are defined and framed People living in post crisis societies have no choice but to adapt to the changes caused by crisis Such adaptation entails the question of how the relationship between the pre crisis situation and the new status quo is constructed and by whom Due to the reduced possibility of using the immediate past which is tainted by conflict and bad memories it may involve revisions of historical narratives about communal pasts and identities through the selection of new anchors and sometimes even a discarding of the old ones Crises affect all areas of life and crisis recovery likewise spans different spheres This volume finds traces of such recovery strategies in texts as well as visual representations in literary as well as in documentary texts in official ideology as much as in subaltern responses The contributors bring together the diverse testimonies for such ways of coping that have survived from antiquity
