$$K_{sp} = [\text{Ag}^+]^2 [\text{CrO}_4^{2-}]$$

$$K_{sp} = (2s)^2 s$$

$$K_{sp} = 4s^3$$

$$s^3 = \frac{K_{sp}}{4} \quad \text{or} \quad s = \sqrt[3]{\frac{K_{sp}}{4}}$$

$$= \sqrt[3]{\frac{1.1 \times 10^{-12}}{4}}$$

$$= 6.5 \times 10^{-5} \text{ M}$$

Answer  $6.5 \times 10^{-5} \text{ M}$

11. At a certain temperature 0.0558 grams of  $\text{SrF}_2$  will dissolve in 500.0 mL of water. Calculate the  $K_{sp}$  for  $\text{SrF}_2$  at this temperature. Show all your steps in a logical manner. Correct use of units and significant digits counts (3 marks)

$$g \rightarrow \text{mol} \rightarrow M$$

$$0.0558 \text{ g SrF}_2 \times \frac{1 \text{ mol}}{125.6 \text{ g}} = 4.4427 \times 10^{-4} \text{ mol}$$

$$M (\text{molar solubility}) = \frac{4.4427 \times 10^{-4} \text{ mol}}{0.5000 \text{ L}} = 8.885 \times 10^{-4} \text{ M}$$

$$K_{sp} = [\text{Sr}^{2+}][\text{F}^{-}]^2$$

$$= (8.885 \times 10^{-4})(1.777 \times 10^{-3})^2$$

**Canadian Perspective** Charles Hauss,Miriam Catherine Smith,2000 **The Court of Justice of the European Union** Kate Shaw,2018-03-20 In the Court of Justice of the European Union Subsidiarity and Proportionality Kate Shaw sets out how a subsidiarity and proportionality review applied to competences could be anchored by the Court of Justice when balancing the competing interests in cases concerning the residency rights of EU citizens The book also considers the extent to which a court which is dedicated to enhancing the European project is really able to be an independent arbiter between the EU and the Member States in this context Both the legal reasoning of the Court and the controversial nature of residency rights of EU citizens are legally and politically very topical at the moment and of interest to legal academics and law students

**National Identity in EU Law** Elke Cloots,2015-02-12 Despite nearly sixty years of European integration neither nations nor national loyalties have withered away On the contrary national identity rhetoric seems on the rise not only in politics but also in legal discourse Lately we have seen a rise in the number of Member States invoking their national identity in an attempt to justify a derogation from a requirement imposed on them by a Treaty article or an EU legislative act or to legitimize a particular national reading of such an EU norm Despite this the European Court of Justice ECJ has yet to develop

a coherent approach to such arguments or express a vision of the role national identity should play in EU law Elke Cloots undertakes this task by providing a principled and coherent scheme for the adjudication of disputes involving claims based on the national identity of a Member State Should arguments involving national identity be legally relevant If yes how should the ECJ approach such identity related interests Cloots crafts a normative framework to assist the ECJ in striking the right balance between European integration and respect for the identity concerns at issue The book combines rigorous theoretical inquiry with thorough analysis of the European Treaties and case law with particular attention paid to litigation involving domestic measures concerning the national system of government constitutional rights protections and language policy Clarifying the issues at stake and presenting a solution to these problems this book will be an invaluable resource for the academics lawyers and policy makers in the field

**Truth in Advertising?** Barbara Allen, Daniel Stevens, 2018-10-18 This book represents the first systematic effort to examine 1 the factual accuracy of the claims made in an entire political advertising campaign 2 the visuals and sound cues used in that advertising and their relationship with the tone and accuracy of ads and 3 the impact of the accuracy of claims on what people know and how they vote in a real campaign The research is based on several years of labor intensive coding of the factual accuracy of every claim made in the presidential ads in the 2008 election as well as the ads for the races for the US Congress in Minnesota We show how the accuracy of political ad claims the visuals and sound of ads and ad tone particularly negativity are related to voting behavior We argue that understanding how the accuracy of political ad claims affects voters is now more important than ever This research has steered clear of the normative question of what such putative gains in knowledge represent however Does the content of negative advertising enhance voter capacities such as the ability to locate candidates issue positions accurately or state reasons to like or dislike candidates based on accurate information about the candidates traits or issue stands Does the accuracy of the information in political advertising matter to voting behavior or vote choice whether turnout goes up or down Would voting more while knowing less that is true be sufficient in a democracy In studying the effects of advertising tone such questions about advertising tone have not been asked Our book redresses this lacuna We show that negative advertising is more likely to make inaccurate claims We show that ads making inaccurate claims also use a larger number of visual and sound distortions perhaps tying up more cognitive capacities while pressing their untruthful arguments We show links between inaccurate advertising and aggregate turnout individual turnout and individual political knowledge The news is not good in an age of post factual democracies

Religious Origins of Democratic Pluralism Mark Safstrom, 2017-01-26 The Religious Origins of Democratic Pluralism focuses on explaining one of the riddles that fascinated historians and political scientists for much of the twentieth century namely the origin and development of

Swedish social democracy While other countries in Europe experienced dramatic swings between radical and conservative political parties which resulted in tragic experiments with totalitarian regimes Sweden by contrast miraculously seemed to avoid these extremes and instead maintained space for democratic discussion and even dissent This peaceful transformation was facilitated by political actors who crafted the discourse of their debates in such a way that pluralism came to be valued as an ethical good and then vigorously defended This study examines the decades leading up to the emergence of social democracy in Sweden and in particular the career of one prominent politician Paul Peter Waldenstrom 1838 1917

Waldenstrom was a clergyman revival preacher educator author and newspaper editor whose political career began in 1868 with his participation in the Church Assembly of the Church of Sweden His role expanded during his years of service in the Swedish parliament the Riksdag from 1884 1905 This study places Waldenstrom in dialogue with his contemporaries and opponents as a means of identifying how the theological values and priorities of the religious awakening were articulated in the public sphere and contributed to the development of a new political order *Landscape Simulation Modeling* Robert

Costanza, Alexey Voinov, 2006-06-02 The world consists of many complex systems ranging from our own bodies to ecosystems to economic systems Despite their diversity complex systems have many structural and functional features in common that can be effectively simulated using powerful user friendly software As a result virtually anyone can explore the nature of complex systems and their dynamical behavior under a range of assumptions and conditions This ability to model dynamic systems is already having a powerful influence on teaching and studying complexity The books in this series will promote this revolution in systems thinking by integrating computational skills of numeracy and techniques of dynamic modeling into a variety of disciplines The unifying theme across the series will be the power and simplicity of the model building process and all books are designed to engage the reader in developing their own models for exploration of the dynamics of systems that are of interest to them *Modeling Dynamic Systems* does not endorse any particular modeling paradigm or software Rather the volumes in the series will emphasize simplicity of learning expressive power and the speed of execution as priorities that will facilitate deeper system understanding *Red Silk* Robert Cliver, 2021-02-01

*Red Silk* is a history of China's Yangzi Delta silk industry during the wars crises and revolutions of the mid twentieth century Based on extensive research in Chinese archives and focused on the 1950s the book compares two very different groups of silk workers and their experiences in the revolution Male silk weavers in Shanghai factories enjoyed close ties to the Communist party state and benefited greatly from socialist policies after 1949 In contrast workers in silk thread mills or filatures were mostly young women who lacked powerful organizations or ties to the revolutionary regime For many filature workers working conditions changed little after 1949 and politicized production campaigns added a new burden within the brutal and oppressive factory regime in place since the nineteenth century Both groups of workers and their employers had to adapt to rapidly changing circumstances Their actions protests petitions bribery tax evasion compelled the party state to adjust its policies producing new challenges

The results though initially positive for many were ultimately disastrous By the end of the 1950s there was widespread conflict and deprivation among silk workers and despite its impressive recovery under Communist rule the industry faced a crisis worse than war and revolution
