

The sturdy bench is matching oak.

Illustration of spacious right-hand and action sharing storage space for manuals and separate piano acting manuals. The same facilities are provided in the left-hand console.

The volumes illustrated house special loud-speakers essential for the comprehensive sound distribution system required for this organ. These volumes are normally installed as follows: 4 low frequency units, 4 middle frequency units and 4 high frequency units, creating a loud-speaker ensemble.

An invitation...

Prove to your Congregation — your Organist — your Choir — and yourself, that here is an instrument that is worthy of a place in your Church.

ARTISTICALLY AND MUSICALLY CORRECT

The Console is hand-crafted from solid oak. The sound distributing units in matching character, are designed to separate the low, middle and high frequency registers into independent channels.

QUALITY AND PURITY OF TONE

Individual voices adding 'life' and naturalness develop into full choirs as stops are added, creating pure church organ tone—every note speaks as it should—'Like a pipe from its ranks'. Of particular importance are the magnificent reed stops carefully voiced to compare favourably with similar stops on some of the more famous pipe organ installations.
