Cahill,Martin Gustafsson,Thomas Schwarz Wentzer,2017-05-22 World leading anthropologists and philosophers pursue the perplexing question fundamental to both disciplines What is it to think of ourselves as human A common theme is the open ended and context dependent nature of our notion of the human one upshot of which is that perplexities over that notion can only be dealt with in a piecemeal fashion and in relation to concrete real life circumstances Philosophical anthropology understood as the exploration of such perplexities will thus be both recognizably philosophical in character and inextricably bound up with anthropological fieldwork The volume is put together accordingly Precisely by mixing ostensibly philosophical papers with papers that engage in close anthropological study of concrete issues it is meant to reflect the vital tie between these two aspects of the overall philosophical anthropological enterprise The collection will be of great interest to philosophers and anthropologists alike and essential reading for anyone interested in the interconnections between the two disciplines **kalkulus diferensial** Herry Pribawanto Suryawan,2020-02-28 Buku ini menekankan aspek konseptual dari kalkulus Konsep konsep dasar dijelaskan secara rinci dan disertai dengan pembuktian Tentu saja untuk memperjelas konsep yang dibicarakan diberikan beberapa contoh soal Untuk melatih keterampilan dan juga menguji pemahaman soal soal latihan
