

## AP Calculus Chapter 2: Limits Study Guide

I recommend reading through each section and checking your understanding with the preliminary questions. Look over the first quiz on limits. Can you evaluate limits numerically, graphically, and algebraically? Do you know how to *prove* a function continuous or discontinuous? Can you find vertical and horizontal asymptotes of a rational function? Can you apply the Intermediate Value Theorem? Do you understand the Squeeze Theorem and remember the 2 limits we learned from the Theorem?

Below are some problems for you to practice. We will review in class Friday and Monday. Additionally, there will be tutorial after school on Monday. Our test will be Tuesday and will consist of AP style problems. Don't underestimate it!

### Multiple Choice: Complete the following problems without using a calculator.

Use scratch paper as necessary to solve each problem. Pick the best answer from the choices provided.
