Ap Chemistry Zumdahl 9th Edition

John T. Moore, Richard H. Langley

Ap Chemistry Zumdahl 9th Edition:

Chemistry Steven S. Zumdahl, Susan A. Zumdahl, 2013-01-01 This fully updated Ninth Edition of Steven and Susan Zumdahl's CHEMISTRY 9E International Edition brings together the solid pedagogy, easy to use media and interactive exercises that today's instructors need for their general chemistry course. Rather than focusing on rote memorization, CHEMISTRY 9E International Edition uses a thoughtful approach built on problem solving. For the Ninth Edition, the authors have added a new emphasis on critical systematic problem solving, new critical thinking questions, and new computer-based interactive examples to help students learn how to approach and solve chemical problems, to learn to think like chemists, so that they can apply the process of problem solving to all aspects of their lives. Students are provided with the tools to become critical thinkers, to ask questions, to apply rules and develop models, and to evaluate the outcome. In addition, Steven and Susan Zumdahl crafted ChemWork, an online program included in OWL Online Web Learning, to support their approach, much as an instructor would offer support during office hours. ChemWork is just one of many study aids available with CHEMISTRY 9E International Edition that supports the hallmarks of the textbook: a strong emphasis on models, real world applications, visual learning, and independent problem solving.

The Big Book of Chemistry Teacher Stories Jeff Lark, Stories from years of teaching high school chemistry
