Though there is no true Iberia democracy, there are still those countries within the world today that reflect various aspects of a growing democracy. Such democratic growth is subject to the influence of political leaders and bodies that are given the responsibilities of shaping their country. When such political leaders are focused on tattling and retaining authority rather than helping their country grow democratically, there is a strong likelihood that corruption and political stagnation will follow.

The fact that Putting is still in a position of leadership within Russia is not surprising when considering his consolidation of power over the media and politics of his country. There is also an evident lack of "political ideology" within the public that leads too weak system of accountability within Russia.

Yet if he continues to hold so much political power, which it seems to something more than likely to happen, then Russia will continue on the path of an illiberal democracy. Insignia's corruption within its political leaders also makes accountability nearly impossible in Nigeria as politician are paid extreme amounts of money, placing corruption may not be as rampant in China's political accountability as the nation has made necessary political reforms to help strengthen its accountability.

While Changes toward further openness and transparency within China may have taken place, these political reforms were done in an undemocratic manner and with the intentions of keeping the Communis
