

Oral Presentation Rubric

	Delivery	Content / Organization	Enthusiasm / Audience Awareness
4 Excellent	Holds attention of entire audience with the use of direct eye contact. Speaks with fluctuation in volume and inflection to maintain interest and emphasize key points.	Demonstrates full knowledge of topic using explanations and illustrations. Provides pertinent examples, facts and/or statistics, supports conclusions and ideas with evidence.	Demonstrates strong enthusiasm about topic during the entire presentation. Significantly increases audience understanding and knowledge of topic. Captivates an audience by recognizing the validity and importance of the topic.
3 Good	Consistent use of direct eye contact. Speaks with satisfactory variation of volume and inflection.	Is at ease with topic using some explanations but no illustrations. Provides some examples, facts and/or statistics that support the subject.	Shows some enthusiasm (eagerness) about topic. Increases audience understanding and awareness of most points.
2 Fair	Displays minimal eye contact. Speaks in uneven volume with little or no inflection.	Is uncomfortable with information and is able to answer rudimentary questions. Attempts to define purpose but has weak examples, facts and/or statistics which do not adequately support the subject.	Shows little or mixed feeling about the topic being presented. Increases audience understanding and knowledge of some points.
1 Needs Improvement	Holds no eye contact. Speaks in a low volume and/or monotonous tone.	Does not have grasp of information and cannot answer questions about subject. Does not clearly define subject and purpose. Provides weak or no support to the subject. Shows insufficient material for ideas or conclusions.	Shows no interest in topic presented. Fails to increase audience understanding or knowledge of topic.

3rd Grade Rubric For Endangered Animals Project:

STEM: Life Science , **The Common Core in Action** Deborah J. Jesseman,2015-06-19 This book addresses Common Core State Standard curriculum resources to assist the school librarian in collaborating with classroom teachers Librarians are being asked to understand the Common Core State Standards CCSS and their implications to programming and instruction as well as to collection development planning Using lesson plans originally published in School Library Monthly this title builds upon them adding many additional plans that address CCSS issues The plans will help you implement the standards and can also be used as stepping stones to facilitate planning conversations and collaboration with teachers to co teach lessons correlated with the standards The book begins with an overview of the CCSS what they are how are they different from the content standards and what the implications are for schools where the state has adopted them including what the CCSS mean for collection development It then goes on to explore the opportunities the CCSS present for the school librarian looking at how you can become a leader in employing the process The majority of the book is devoted to reproducible lesson plans organized by curricular area or topic and grade level for ease of use **It's Just Good Teaching: Ideas to Add to Your Bag of Tricks** Floyd Cogley,Jennifer Kruk-Carcich,Marcy Pollinger-Di Eduardo,2010-06 This valuable resource book should be on every Third through Sixth Grade teacher s shelf The book is filled with invigorating activities reproducibles and ideas to add to your bag of tricks It is designed by teachers for teachers is in an easy to use format and the perfect size to bring to the copy machine **Harcourt Science** ,2002 Science and Environmental Education Resource Guide California. Department of Education,1991 Resources in Education ,1988 **Getting to the Common Core** Sharon L. Spencer,Sandra Vavra,2015-01-01 The Common Core Standards have recently been adopted in most states across the nation and teachers are in the process of getting to the core of these standards Teaching to standards is not a new concept teachers have adapted to new standards every few years for quite some time And teachers are adaptable as can be seen in this book We are writing this book to demonstrate how teachers use research based strategies to meet Common Core Standards while still focusing on students Our goal is to help teachers visualize students in action as other teachers describe the implementation of research based strategies in their own classrooms show student work samples and provide reflections of student success in achieving the standards Many Common Core Standards books focus on the standards but our approach focuses on strategies that engage the students in the classroom showing how different teachers at varying grade levels have used the strategies to meet the standards With this focus we believe that teachers gain a new and positive perspective on approaching the new standards and see the flexibility of strategies for meeting standards across subject areas We have examined research on the strategies with the purpose of giving teachers a brief description of why these strategies work before giving actual examples from classrooms We also work closely with teachers in the public schools and have our finger on the pulse of what is happening in the public schools one of the current stressors being unpacking the Common Core

Standards This book actually focuses on practice We begin by laying out a rationale in our first chapter The Core Value s of Education Then each chapter focuses on a strategy including 1 a brief description about the research supporting each strategy and 2 several examples from different grade levels which include a description of how the strategy was used student work samples and a reflection on the use of the strategy The research descriptions are fairly short because while we believe professional educators aka teachers in this case should know the research that supports practice we know they are not typically interested in long diatribes about the research Leading the Common Core Initiative Carl A. Harvey II,Linda L. Mills,2014-11-25 Defining both the Common Core Standards and the school librarian s role in their implementation this book offers ready to use lesson plans and other tools for grades K 5 and identifies opportunities for collaborative teaching As elementary schools in nearly all 50 states are faced with meeting the Common Core State Standards CCSS school librarians need to understand the challenges and have lesson plans ready to help This resource introduces the CCSS in English and mathematics to K 5 librarians and aides helping them to understand the concepts analyzing the impact on the school library and providing lesson plans resources and other tools for implementation in integrated instruction with other curricula and collaborative teaching with other elementary teachers Based upon the authors own experiences in adopting the CCSS in their school the included exemplar lesson plans and ideas are designed to support school librarians as they begin to collaborate with teachers in using the Common Core Standards in their daily classroom instruction The book also discusses the opportunities for advocacy that result from the librarian s instrumental role in implementing the CCSS both as a staff developer and a collaborative partner teacher *High Interest Science* ,2018 Help the Animals! (a Cross-Curricular Classroom Musical and Study Unit about Endangered Species) Debbie Tirrell,2001-08 Designed by a 3rd grade Teacher of the Year this classroom musical includes learning activities that culminate in an exciting musical performance The activities incorporate music science social studies math reading creative writing technology art public speaking and research skills Every type of learner is included regardless of ability and there are short speaking parts for everyone Completely kid tested The package includes reproducible script and song lyrics professional CD with rehearsal and performance reproducible activity pages reproducible animal puppet patterns and easy set props and costume suggestions **High Interest Science** ,2018
