The First Temptation Edwin Zackrison, 2015-10-22 In Christian thought original sin is the theological term for describing the state or condition of universal sinfulness where humans are found as the result of Adam's sin according to the Biblical account It stands distinct from actual sin or that voluntary conscious transgression of the law of God The doctrine of original sin purports to provide a systematic theological explanation of the Biblical data regarding the radical sinfulness of the human race This entails the Biblical data as well as the study of many significant Christian thinkers and writers The First Temptation explores the early attempts 1850-1900 of Seventh day Adventist theologians to understand where this doctrine fit into their understanding of human salvation Inheriting most of their theology from New England in the mid 1800s these SDA theologians set about to correct what they considered was a perversion of Protestant thought But in their pursuit they found the doctrine becoming the victim of battles between New England and New Haven Theology This book makes a profound contribution to the history of an idea central to the Christian faith As the saying goes If one does not understand the nature of the problem one cannot comprehend the fixing of the problem There is a difference between chronicle and history Chronicle records what happened history illuminates what happened Chronicle provides information history provides understanding Professor Zackrison's study is history in the best sense of the word It is an example of historical theology at its best

Mikva, 2020-11-03 Reveals how faith traditions have always passed down tools for self examination and debate because all religious ideas not just extremist ones can cause harm even as they also embody important moral teachings Scripture s abiding relevance can inspire great goodness such as welcoming the stranger and extending compassion for the poor But its authority has also been wielded to defend slavery marginalize LGBTQ individuals ignore science and justify violence Grounded in close readings of scripture and tradition in Christianity Islam and Judaism religious scholar Rachel Mikva shows us that the Abrahamic religions have always been aware of their tremendous power both to harm and to heal And so they have transmitted their sacred stories along with built in tools interpretive traditions to do the necessary work of taking on dangerous religious ideas and fostering self critical faith By exploring the themes of Scripture Election Reward and Punishment Mikva examines how the interpretive methodologies of these religions have identified and grappled with their perilous power and positive potential Many readers presume that their understanding of scripture s meaning is absolute forgetting how these sacred texts and the history of interpretation have valued multiple perspectives and recognized ongoing rhythms of change It s not a modern phenomenon to debate the nature of truth hold space open for doubt value humility and question our capacity to know things especially about God and God s will with certainty In fact none of the traditions could remain vital or thrive together without a sustained practice of self critique Dangerous Religious Ideas reframes the way we talk about faith to create a space where public discussion of religion is more constructive nuanced and socially engaged *Animals and Animality in the Babylonian Talmud* Beth A.
