

SOME SLEDS TURN HEADS, SOME TURN CORNERS, ONE DOES BOTH.

Sometimes only you and the Cat know how to handle. And the Cat you need to handle those tracks in Cougar. A 20" wide ski allows you to maneuver like the best of them, handling that water out every short cut on the path.

Up front, Cougar's good looks are more good news. The sleek head has integrated air ducts for superior cooling. High in front, behind a special grille for long, better views out of your line of vision. And best of all, the design gives Cougar the kind of low front appearance that few others will forget when it goes slipping past.

They say tracks aren't everything, and in Cougar's case, they're right. Because underneath that built-in skid board and a plenty of muscle. A full 100-hp fuel-injected glory are needed results.

All of that power is riding on one of the best suspension systems in snowmobiling. One type of the fine AFD Sport suspension now has a standard suspension. Working in concert with the long-travel rear suspension, it's made for bumps and potholes. With a view like that, Cougar can even drive up on the tracks that haven't been opened.
