the late 1870s that saw an unprecedented explosion of freethought publications and organizations together with a demand for the separation of church and state and a final resurgence in the 1920s that helped realize the remarkable series of twentieth century Supreme Court decisions that created America's present conditions of secularism Hoffman argues that the freethought movement was successful because it united people with a wide variety of religious outlooks including deists pantheists Unitarians Universalists spiritualists transcendentalists Humanists agnostics and atheists behind the idea that religion is freer and the state is more just when the government refrains from religious involvement Architecture & Academe Bryant Franklin Tolles, 2011 The unique and influential architecture of sixteen New England colleges
