The Racial Mundane Ju Yon Kim,2015-05 Winner Lois P Rudnick Book Prize presented by the New England American Studies Association Across the twentieth century national controversies involving Asian Americans have drawn attention to such seemingly unremarkable activities as eating rice greeting customers and studying for exams While public debates about Asian Americans have invoked quotidian practices to support inconsistent claims about racial difference diverse aesthetic projects have tested these claims by experimenting with the relationships among habit body and identity In *The Racial Mundane* Ju Yon Kim argues that the ambiguous relationship between behavioral tendencies and the body has sustained paradoxical characterizations of Asian Americans as ideal and impossible Americans The body's uncertain attachment to its routine motions promises alternately to materialize racial distinctions and to dissolve them Kim's study focuses on works of theater fiction and film that explore the interface between racialized bodies and everyday enactments to reveal new and latent affiliations The various modes of performance developed in these works not only encourage audiences to see habitual behaviors differently but also reveal the stakes of noticing such behaviors at all Integrating studies of race performance and the everyday *The Racial Mundane* invites readers to reflect on how and to what effect perfunctory behaviors become objects of public scrutiny

Virtue Hoarders Catherine Liu,2021-01-26 A denunciation of the credentialed elite class that serves capitalism while insisting on its own progressive heroism Professional Managerial Class PMC elite workers labor in a world of performative identity and virtue signaling publicizing an ability to do ordinary things in fundamentally superior ways Author Catherine Liu shows how the PMC stands in the way of social justice and economic redistribution by promoting meritocracy philanthropy and other self serving operations to abet an individualist

path to a better world *Virtue Hoarders* is an unabashedly polemical call to reject making a virtue out of taste and consumption habits *Forerunners Ideas First* is a thought in process series of breakthrough digital publications Written between fresh ideas and finished books *Forerunners* draws on scholarly work initiated in notable blogs social media conference plenaries journal articles and the synergy of academic exchange This is gray literature publishing where intense thinking change and speculation take place in scholarship World on Fire Proof Amy Chua,2003-07-17 Battle Hymn of the Tiger Mother Amy Chua,2011-12-06 A lot of people wonder how Chinese parents raise such stereotypically successful kids They wonder what Chinese parents do to produce so many math whizzes and music prodigies what it s like inside the family and whether they could do it too Well I can tell them because I ve done it Amy Chua s daughters Sophia and Louisa Lulu were polite interesting and helpful they had perfect school marks and exceptional musical abilities The Chinese parenting model certainly seemed to produce results But what happens when you do not tolerate disobedience and are confronted by a screaming child who would sooner freeze outside in the cold than be forced to play the piano *Battle Hymn of the Tiger Mother* is a story about a mother two daughters and two dogs It was supposed to be a story of how Chinese parents are better at raising kids than Western ones But instead it s about a bitter clash of cultures a fleeting taste of glory and how you can be humbled by a thirteen year old Witty entertaining and provocative this is a unique and important book that will transform your perspective of parenting forever **The Transnationalism of American Culture** Rocío Davis,2013-01-04 This book studies the transnational nature of American cultural production specifically literature film and music examining how these serve as ways of perceiving the United States and American culture The volume s engagement with the reality of transnationalism focuses on material examples that allow for an exploration of concrete manifestations of this phenomenon and trace its development within and outside the United States Contributors consider the ways in which artifacts or manifestations of American culture have traveled and what has happened to the texts in the process inviting readers to examine the nature of the transnational turn by highlighting the cultural products that represent and produce it Emphasis on literature film and music allows for nuanced perspectives on the way a global phenomenon is enacted in American texts within the U S also illustrating the commodification of American culture as these texts travel The volume therefore serves as a coherent examination of the critical and creative repercussions of transnationalism and by juxtaposing a discussion of creativity with critical paradigms unveils how transnationalism has become one of the constitutive modes of cultural production in the 21st century *Accepted!* Jamie Beaton,2022-02-23 Now a USA Today and Publishers Weekly bestseller How do you REALLY get accepted to Harvard Yale and the Ivy League Told from the fresh and personal perspective of 26 year old Crimson Education CEO and Harvard Stanford and Oxford graduate Jamie Beaton *Accepted* is an honest and practical guide on beating the odds and getting into Ivy League and other elite schools the smart way Beaton takes you behind the doors of the world s top college admissions offices revealing the highly strategic selection processes applied by

This book explains why those efforts have fallen short and identifies policies that can prevent such carnage. The key is getting the causation analysis right. Conventional wisdom emphasizes ancient hatreds poverty and the impact of Western colonialism as drivers of mass violence. But far more important is the inciting power of mass ideological hate propaganda. This is what activates the drive to commit mass atrocities and creates the multitude of perpetrators needed to conduct a genocide or sustain a terror campaign. A secondary causal factor is illiberal dualistic political culture. This is the breeding ground for the extremist us vs them ideologies that always precipitate episodes of mass hate incitement. A two tiered policy response naturally follows from this analysis. In the short term several targeted interventions to curtail outbreaks of such incitement and in the long term support for indigenous agents of liberalization in venues most at risk for ideologically driven violence. **Making the Human** Corinne Mitsuye Sugino, 2024-11-15 From the debate over affirmative action to the increasingly visible racism amidst the COVID 19 pandemic Asian Americans have emerged as key figures in a number of contemporary social controversies. In *Making the Human Race Allegory and Asian Americans* Corinne Mitsuye Sugino offers the lens of racial allegory to consider how media institutional and cultural narratives mobilize difference to normalize a white Western conception of the human. Rather than focusing on a singular arena of society Sugino considers contemporary sources across media law and popular culture to understand how they interact as dynamic sites of meaning making. Drawing on scholarship in Asian American studies Black studies cultural studies communication and gender and sexuality studies Sugino argues that Asian American racialization and gendering plays a key role in shoring up abstract concepts such as meritocracy family justice diversity and nation in ways that naturalize hierarchy. In doing so *Making the Human* grapples with anti Asian racism's entanglements with colonialism antiblackness capitalism and gendered violence. **Now You See It and Other Essays on Design** Michael Bierut, 2019-03-12 Design is a way to engage with real content real experience writes celebrated essayist Michael Bierut in

Just Like Us Thomas Borstelmann, 2020-05-05 Americans have long considered themselves a people set apart but American exceptionalism is built on a set of tacit beliefs about other cultures From the founding exclusion of indigenous peoples and enslaved Africans to the uneasy welcome of waves of immigrants from republican disavowals of colonialism to Cold War proclamations of freedom Americans ideas of their differences from others have shaped the modern world and how Americans have viewed foreigners is deeply revealing of their assumptions about themselves *Just Like Us* is a pathbreaking exploration of what foreignness has meant across American history Thomas Borstelmann traces American ambivalence about non Americans identifying a paradoxical perception of foreigners as suspiciously different yet fundamentally sharing American values beneath the layers of culture Considering race and religion notions of the American way of life attitudes toward immigrants competition with communism Americans abroad and the subversive power of American culture he offers a surprisingly optimistic account of the acceptance of difference Borstelmann contends that increasing contact with peoples around the globe during the Cold War encouraged mainstream society to grow steadily more inclusive In a time of resurgent nativism and xenophobia *Just Like Us* provides a reflective urgent examination of how Americans have conceived of foreignness and their own exceptionalism throughout the nation s history

The Normal Accident Theory of Education Andrew K. Milton, 2014-04-01 Much of the current debate about education too often resembles the blind men describing an elephant apprehending only a particular part of the situation or the process many analysts tell an evocative but incomplete story The so called reform discussion proceeds with a lack of depth about the nuances and realistic limitations in the institutional order of school This book argues that as regulation of schools moves further up the bureaucratic hierarchy first to state departments of education then to the national department of education the legal and institutional requirements get more intensive but less concretely useful in class rooms This bureaucratization serves to tighten the organizational environment thereby increasing the risk of normal accidents The increasing governmental management in other words makes it more likely that schools will fail to meet their goals Analyses of education are too often developed for public consumption in a fast moving political world This book examines some of the deeper organizational reasons why things don t work so well in school as well as a look at some of things that do work Most importantly the book will explain how the social and cultural expectations of what schools can do may create unrealistic
