Dickerson, Thomas Flanagan, 2002 *The Age of Knowledge* James Dzisah, Henry Etzkowitz, 2011-10-14 The Age of Knowledge emphasizes that the ongoing transformations of knowledge both within universities and for society more generally must be understood as a reflection of the larger changes in the constitutive social structures within which they are invariably produced translated and reproduced **Value Change and Governance in Canada** Neil Nevitte, Professor in the Department of Political Science Neil Nevitte, 2002-01-01 Consequently they argue the institutions of democratic governance now operate in a profoundly different environment than that in which they were founded Misrecognized Materialists Matt James, 2011-11-01 Canada's history of intense constitutional debate is often depicted as a source of national embarrassment a diversion from more sensible endeavours Misrecognized Materialists tells a different story Beginning with the Rowell Sirois hearings of the Great Depression and concluding with the national unity wars of the late 1980s and early 1990s Matt James details how groups representing marginalized constituencies women working class people and ethnocultural minorities were able to use the Canadian constitutional arena to pursue traditionally neglected aspirations and concerns With concrete illustrations and case studies James questions the common tendency to interpret recognition struggles as departures from traditional materialist priorities such as economic security and personal safety Ultimately he argues that such materialist priorities were and are in fact at the heart of the fight for recognition for many marginalized groups A book with provocative implications for students and scholars of social movements and identity politics Misrecognized Materialists offers a fresh and important perspective on Canada's constitutional struggles over civic symbolism and identity Routledge Handbook of Public Policy in Africa Gedion Onyango, 2021-12-30 This Handbook provides an authoritative and foundational disciplinary overview of African Public Policy and a comprehensive examination of the practicalities of policy analysis policymaking processes implementation and administration in Africa today The book assembles a multidisciplinary team of distinguished and upcoming Africanist scholars practitioners researchers and policy experts working inside and outside Africa to analyse the historical and emerging policy issues in 21st century Africa While

Pathways Out of the Republican Party Kyle Morrison, 2025-09-26 This volume reflects nearly two years of Zoom interviews conducted leading up to and following the 2020 US election In contrast to the abundance of literature on Trump and the far right left the stories within highlight the struggle of the anti Trump conservative voters who consider themselves caught between two increasingly polarized parties Left behind by their party and unwilling or unable to join the opposition these individuals find themselves abandoned by the system dictated by a series of choiceless decisions Grounded in anthropological and political theory and field methods the interviews housed within this book reflect the advantages of the qualitative and holistic approach ethnography brings to the understanding of political identity The book begins with a brief but comprehensive overview on the history of the Republican Party from Eisenhower to Trump The following chapter then unpacks the complex and subjective label of American conservatism Chapter Three ends with a breakdown of the dominant principles within conservative thought identified in the literature cited and each interview The next few chapters analyze the party exits through a combination of Albert Hirschman's 1970 Exit Voice Loyalty model and social identity theory The final chapter of this book presents the reader with an opportunity to consider their positionality as it impacts the future of American democracy Providing an interdisciplinary analysis of political identity in the American electorate this volume will be of interest to researchers and students of US politics electoral politics identity politics political parties public anthropology and social science in general

Winning Power Tom Flanagan, 2014-03-01 Campaigns are central to the practice of modern democracy and integral to political participation in the twenty first century In *Winning Power* Tom Flanagan draws on decades of experience teaching political science and managing political campaigns to inform readers about what goes on behind the scenes While the goal of political campaigning using persuasion to build a winning coalition remains constant the means of achieving that goal are always changing Flanagan dissects the effects of recent changes in financial regulation and grassroots fundraising the advent of the permanent campaign as well as the increase in negative advertising He pulls these themes together to show how tactics are employed at specific points in a campaign by providing a firsthand account of his management of the Wildrose Party campaign in Alberta's 2012 provincial election Lifting the veil of campaign secrecy he

provides a candid account of the successes and mistakes the newly formed party made in an election that nearly toppled the four decade long dynasty of Alberta's Progressive Conservatives Modeling its campaign on the 2006 campaign that brought Stephen Harper to 24 Sussex Drive Wildrose combined grassroots fundraising an innovative platform that reached out to its electoral coalition a carefully scripted leader's tour as well as negative and positive advertising in the race towards leadership Success for the party seemed within reach until breakdowns in message discipline in the campaign's final week caused the Wildrose tide to ebb Citing diverse sources such as game theory evolutionary psychology and Aristotelian rhetoric Flanagan explores the timeless aspects of campaigning and emphasizes new strategies of coalition building For future campaigners Winning Power provides textbook illustrations of what does and doesn't work

The Primacy of Persons in Politics John von Heyking, Thomas W. Heilke, 2013 What is the nature of political activity This question has vexed political thinkers since Plato wrote Statesman and remains challenging today Contemporary intellectual categories obstruct individuals from understanding politics as a distinct species of activity with its own realm of expertise modes and ends Instead politics is poorly directed by notions of achieving a complete or final end of affairs It tends to be conflated with other types of activities and realms of life including economics power seeking and law and procedure As a result politics often is untethered from morality Taking as their departure point the political philosophical analyses of German scholar Tilo Schabert the philosophical and empirical essays in this volume invite the reader to move beyond the sterile dichotomy of political activity as either pure will or as folded into a more manageable activity The contributors argue that politics is a highly creative human activity that eludes capture within a final and static analytical framework concluding that ethical political action is indeed part of the essence of politics

ABOUT THE EDITORS John von Heyking professor of political science at the University of Lethbridge Alberta Canada is author of Augustine and Politics as Longing in the World and Friendship and Politics Essays in Political Thought and editor of two volumes in the Collected Works of Eric Voegelin series Thomas Heilke is professor of political science and director of the Center for Global and International Studies at the University of Kansas His many published works include From Ideologies to Public Philosophies and Great Ideas Great Schemes Political Ideologies in the 19th and 20th Centuries Besides the editors the contributors are Dan Avnon Toivo Koivukoski Andr s L nczi Erik Neveu Tilo Schabert David E Tabachnick and Alexander Thumfart

PRAISE FOR THE BOOK This is precisely the sort of book that all political scientists should read Tilo Schabert's work and the elaboration of it in this volume offers theoretical tools for understanding the world of politics that are missing from the positivist approach Not only will this affirm the usefulness of political theory to non political theorists it might also remind political theorists themselves to re engage the empirical aspect of their own vocation This volume is a testament to the continued salience of political theory and should be required reading for all those who aspire to a career in the discipline Richard Avramenko assistant professor of political science University of Wisconsin Madison

With Ballot and Bayonet Joseph Allan Frank, 1998 Based on letters and diaries of more than a

thousand soldiers political scientist Joseph Allan Frank describes how political considerations were central to the development of the armies of the North and South motivating soldiers shaping officers and assuring military cohesion

Illustrations *Separate but Unequal* Frances Widdowson, 2019-11-05 *Separate but Unequal* provides an in depth critique of the ideology of parallelism the prevailing view that Indigenous cultures and the wider Canadian society should exist separately from one another in a nation to nation relationship Using the Final Report of the Royal Commission on Aboriginal Peoples as an example this historical and material analysis shows how the single minded pursuit of parallelism will not result in a more balanced relationship between Indigenous and non Indigenous peoples On the contrary it merely restores archaic economic political and ideological forms that will continue to isolate the Indigenous population This book provides an alternative framework for examining Indigenous dependency This new perspective the political economy of neotribal rentierism shows that Indigenous Peoples circumstances have been inextricably linked to the development of capitalism in Canada While Indigenous Peoples were integral participants in the fur trade the transition from mercantilism to industrial capitalism led to their marginalization This book is published in English *Separate but Unequal* fournit une analyse approfondie de l'idologie du parallélisme la vision dominante selon laquelle les cultures autochtones et la société canadienne en général devraient vivre séparément les unes des autres dans une relation de nation à nation En s'appuyant sur le rapport final de la Commission royale sur les peuples autochtones cette analyse historique et matérielle montre que les propositions parallèles visant accroître l'autonomie des Autochtones dans tous les aspects des politiques publiques ne se solderont pas en une relation plus équilibrée entre peuples autochtones et non autochtones tant donné qu'elles ne font que rétablir des formes économiques politiques et idéologiques archaïques qui continueront d'isoler la population autochtone Elle propose de recadrer la question de la dépendance autochtone en ayant recours la notion de rentierisme néotribal Ce cadre d'économie politique met en lumière le fait que les conditions des peuples autochtones ont été inextricablement liées au développement du capitalisme au Canada Ce livre est publié en anglais
