The Post-Apocalyptic Novel in the Twenty-First Century

H. Hicks, 2016-04-08 Since the beginning of the twenty first century major Anglophone authors have flocked to a literary form once considered lowbrow genre fiction the post apocalyptic novel Calling on her broad knowledge of the history of apocalyptic literature Hicks examines the most influential post apocalyptic novels written since the beginning of the new millennium including works by Margaret Atwood David Mitchell Cormac McCarthy Jeanette Winterson Colson Whitehead and Paolo Bacigalupi Situating her careful readings in relationship to the scholarship of a wide range of historians theorists and literary critics she argues that these texts use the post apocalyptic form to reevaluate modernity in the context of the new century's political economic and ecological challenges In the immediate wake of disaster the characters in these novels desperately scavenge the scraps of the modern world But what happens to modernity beyond these first moments of salvage In a period when postmodernism no longer defines cultural production Hicks convincingly demonstrates that these writers employ conventions of post apocalyptic genre fiction to reengage with key features of modernity from historical thinking and the institution of nationhood to rationality and the practices of literacy itself

Hope and Kinship in Contemporary Fiction Gero Bauer, 2024-01-11 Explores the emphasis that contemporary novels films and television series place on the present arguing that hope emerges from the potentiality of the here and now rather than the future and as intimately entangled with negotiations of structures of belonging Taking its cue from an understanding of hope as connoting an organizing temporality one which is often presumed to be projecting into a future Hope and Kinship in Contemporary Fiction challenges this understanding arguing that hope emerges in practices of relationality in the present disentangling hope from a necessary correlation with futurity Through close readings of contemporary works including The Road The Walking Dead Cloud Atlas Sense8 The People in the Trees and A Little Life Gero Bauer investigates how these texts explore structures of kinship as creative and affective practices of belonging and care that claim spaces beyond the heterosexual reproductive nuclear family In this context fictional figurations of the child often considered the bearer of the future are of particular interest Through these interventions into definitions of and reflections on fictional manifestations of hope and kinship Bauer's analyses intersect with queer theory new materialism and postcritical approaches to literature and cultural studies moving

towards counterintuitively hopeful readings of the present moment

Experiment in barefoot walking, pain-free hiking on the Camino Portugues, the Portuguese Way of St. James. Oliver Schael, 2022-10-30 Just try to experience your time off differently throw your fears and prejudices overboard don't buy your vacation with your hard earned money Live at least the few days a year not planned and structured Just live into the day This book is not a travel guide Why barefoot Quite simply For some time now we've taken a liking to long hikes but time and time again we've been painfully reminded during or after hikes that it's not that easy especially for the bones The only solution More and more expensive equipment I want to share with you this adventure experiment with all the experiences and knowledge I have made I am not a doctor or a healer but an engineer however I know a lot about mechanics and forces So I look at the influences of barefoot walking from a purely physical point of view just as the engineer does I on the other hand want to systematically strengthen the walking apparatus and thus ensure that I get fewer complaints when walking After a short period of training I felt the effect and was fit enough to feel good for the Camino I had no significant discomfort neither during nor after the hike The taped knees the limping people and the stories of painkillers encouraged me to implement the decision I had made earlier to put the experiences in writing The stories are written in the form of a diary and in retrospect I realize how much the Camino has changed me But there's something else I started out to walk a well maintained easy trail that had good infrastructure But I discovered the Camino Humanity humility and a closeness that I had not experienced in this form for a long time An experience that is difficult to convey but so exhilarating that I decided to walk the path regularly

American Cities in Post-Apocalyptic Science Fiction Robert Yeates, 2021-11-15 Visions of the American city in post apocalyptic ruin permeate literary and popular fiction across print visual audio and digital media American Cities in Post Apocalyptic Science Fiction explores the prevalence of these representations in American culture drawing from a wide range

of primary and critical works from the early twentieth century to today Beginning with science fiction in literary magazines before taking in radio dramas film video games and expansive transmedia franchises Robert Yeates argues that post apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues Examining how the post apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible Chapters present media specific analyses of these texts situating them within their historical contexts and the broader history of representations of urban ruins in American fiction Original in its scope and cross media approach *American Cities in Post Apocalyptic Science Fiction* both illuminates little studied texts and provides provocative new readings of familiar works such as *Blade Runner* and *The Walking Dead* placing them within the larger historical context of imaginings of the American city in ruins
