Directory of Scholarly Journals in Turkey Metin Kozak, Nazmi Kozak, 2017-03-07 Scholarly journals are the capillaries of the scientific world ensuring the circulation of knowledge. Moreover, scholarly journals guide and indicate the scientific development in an academic field of study or in a country. Scholarly journals which transfer and spread scientific information are intended to properly fulfill their functions, preventing the transfer of imperfect or incorrect information to the science world. Significant issues are therefore inevitable in the characteristics of scientific studies in such disciplines and countries where the scholarly journals do not fulfill their functions properly. This study encompasses all scholarly journals published in Turkey in all fields of science and other disciplines. The reference questions in this study are grouped under three main categories: the contact and publication information, article evaluation, and publishing information. The number of journals in this present study totals 1 910. Application of Decision Science in Business and Management Fausto Pedro García

Márquez, 2020-03-04. *Application of Decision Science in Business and Management* is a book where each chapter has been contributed by a different author. The chapters introduce and demonstrate a decision making theory to practice case studies. It demonstrates key results for each sector with diverse real world case studies. Theory is accompanied by relevant analysis techniques with a progressive approach building from simple theory to complex and dynamic decisions with multiple data points including big data, lot of data etc. Computational techniques, dynamic analysis, probabilistic methods, and mathematical optimization techniques are expertly blended to support analysis of multi criteria decision making problems with defined constraints and requirements. The book provides an interface between the main disciplines of engineering technology and the organizational administrative and planning abilities of decision making. It is complementary to other sub disciplines such as economics, finance, marketing, decision and risk analysis etc. *Optimization Methods for Finite Element Analysis and Design* Ishaan R. Kale, Sujin Bureerat, Ravipudi Venkata Rao, 2025-07-16. *Optimization Methods for Finite Element Analysis and Design* describes recent developments in Finite Element Methods (FEM).
