Griffith Taylor Carolyn Strange, Alison Bashford, 2008 Thomas Griffith Taylor 1880-1963 was a geographer anthropologist and world explorer His travels took him from Captain Scott's final expedition in Antarctica to every continent on earth in a life that stretched from the Boer War to the Cold War Taylors research ranged from microscopic analysis of fossils to the races of man and the geographic basis of global politics This timely biography is a copiously illustrated account and analysis of Griffith Taylors remarkable life It explores what drove this long lean lanky man to such extremes geographically intellectually and politically U.S. Geological Survey Professional Paper, 1927 **Professional Paper - United States Geological Survey** Geological Survey (U.S.), 1927 **Professional Paper**, 1927 **Parliamentary Papers** Great Britain. Copyright Office, 1956 Globalization in the Asian Region Gloria Davies, Chris Nyland, 2004-04-28 For anyone seeking a diverse range of perspectives on globalisation in the Asia Pacific region this collection of highly readable essays is a good place to start Focusing on individual countries the chapters examine the specific modalities of global integration and the responses of different sections of society in each country The authors address questions of major importance for democratic societies such as the connection between globalisation and the rise of religious extremism whether globalisation is in reality a new form of imperial preference who the winners and losers are These are complemented by three short case studies dealing with Indonesia's unrealised potential foreign investment in China and patterns in the movement of people between Hong Kong and the mainland The essays provide a rich source of thought provoking analysis of the complex cultural and political responses arising from both opportunities provided by globalisation and its more negative impacts Melanie Beresford Macquarie University Australia Globalization in the Asian Region draws confident ragged lines across disciplines themes and the conventional boundaries of scholarship The range of material in the anthology is astounding The diversity and admixture of political positions and approaches is confronting Contemporary Asia is thus mapped without overgeneralizing a homogenous whole Paul James RMIT University Australia This collection of thoughtful essays provides a reliable picture of the dynamic and often ironic operation of globalization in Asia today and challenges individuals to believe that as communities we have a choice in how we respond and contribute to globalization The editors highlight the multifaceted nature of globalization and bring to the fore its supraterritoriality A dozen detailed studies make good on these claims from analyses of American militancy since 9 11 terrorism and poverty to case studies on Malaysia Indonesia India Australia New Zealand Japan and China These essays make clear the interactive nature of globalization as various economic cultural and political forces pour into Asian societies while the impact of their responses from exports to currency fluctuations to migration flows to transnational religious movements in turn reshape the

selfsame globalization process Timothy Cheek University of British Columbia Canada Bringing together contributors from both the university sector and business centered research institutions this comprehensive volume offers diverse perspectives on the impacts and consequences of globalization in different parts of the Asian region Each chapter offers a substantial account of globalization within a particular nation state or area in the region Different understandings underpin the chapters Some contributors perceive globalization as progress in the form of economically driven processes that have made nations mutually dependent in unprecedented and complex ways Others emphasize the uneven outcomes of globalization as well as the stakes for economic growth and social order in the global climate of deepening political and religious divisions since September 2001 General and specialist readers alike will gain an appreciation of the myriad emphases placed on globalization within different nations and from various vantage points The book showcases diverse styles of discourse and serves to greatly broaden the scope of what can be discussed under the rubric of globalization within a single volume
